Chairman's Communique

“The passion for excellence and zeal to grow has propelled us to navigate through numerous storms in our past three decades’ existence. Today, we are Ready for more with our continued legacy. We are confident of building a stronger, more resilient organisation whose entire ethos is understanding customer needs through data, analytics and cognitive technologies”

Dear Stakeholders,

Our world is undergoing a period of an unusual and a never-seen-before crisis. The COVID-19 pandemic is a distressing challenge in the history of humankind, which is not only testing individuals, but also families, communities, businesses, nations, and the global society, alike. How we respond to this moment defines the essence of who we are.

Yet I begin with my deep feelings for those precious lives lost due to the ongoing pandemic. I pray and hope for its early end and for your safety and good health in these unprecedented times.

I am particularly proud of Jindal's response to the pandemic. The leadership at Jindal has handled the onset of this pandemic well and shifted to a remote delivery model with minimal loss of productivity.

The resilience and fortitude of our employees demonstrates the deep-rooted strength of our Company's heritage and values.

It gives me immense pleasure to present before you all the Company's 34th Annual Report for FY 2019-2020. The year was characterised by extreme economic challenges for the world which was further aggravated by the unprecedented COVID-19 pandemic. But even as we adapted to the new normal, we continued playing our strengths and discovered new prospects, backed up by our long-term vision, innovation-driven strategies, and a passion to create excellent fabrics. The slowdown causing macroeconomic factors of FY 2019-2020 are anticipated to continue in FY 2020-2021 as well. The first half of the Calendar Year (CY) 2020 not only witnessed a complete domination by the pandemic and the resultant lockdowns, but also saw the continuity in the US-China trade war, two years after it began.

During the year, we made efforts towards becoming a 'Partner of Choice' for our esteemed customers and stakeholders. We are well positioned to partner global brands as they deal with the pandemic by launching several co-innovation initiatives. We aim to deliver superior quality fabrics bolstered by our advanced technology and sophisticated equipment. Understanding, adapting, and grasping customers' needs is the key to success in textiles industry. Our expertise in innovating the latest designs in Denim Fabrics, Bottom Weights and Premium Printed Shirtings and Dyed Yarn acts as an impetus to our business. The Company strives to achieve this feat by experimenting with new products and designs with new technology. Today, your Company has emerged as one of the country's strongest textile players by manufacturing excellent products for our customers across the industry.

Sustainability is a prime focus for us and our efforts in this direction form the foundation of our business. From economic sustainability to social responsibility, from preserving biodiversity to working towards a greener environment, a uniform

sustainable approach across all our businesses enables us to create a lasting impact on our communities, as well as the world. As a Company, we are inclined towards achieving sustainability through our actions. Hence, each time we see an opportunity to align our sustainability goals with our business operations, we give it our best shot and embrace it.

The COVID-19 pandemic may have an extended impact, both in terms of opportunities and challenges. The Board, through its engagement with the Management, is committed to guide the Company in recalibrating its growth strategy, addressing the challenges, and grabbing new opportunities. On behalf of the Board, we seek support from each and every stakeholder to bring prosperity to one and all.

My Sincere Gratitude

As I conclude, I would like to express my sincere gratitude towards all the Board Members, our Management, our committed Employees, Bankers, regulatory authorities and the larger stakeholder fraternity for their undeterred support and faith in the Company.

These are challenging and uncertain times, but we feel confident that as a company and community, we can get through this together as Jindal is committed to work through the current environment and our future feels bright and exciting. Your support is the crucial lever needed to face the unprecedented business environment as we chart our journey into the next orbit of growth.

Thank you all and I look forward to your continued trust and confidence.

Stay Safe and Stay Happy, Together, we shall overcome and triumph!

As I look ahead, I strongly believe that the best is yet to come..

Yours Sincerely,

Dr. Yamunadutt A. Agrawal

Chairman
Jindal Worldwide Limited

From the desk of

Managing Director

“At Jindal, we are at the cusp of a transformation today. As we continue shaping our future and build sustainable and competitive advantage through our products, quality and innovations, it is imperative for us to embrace customer centricity.”

Dear Stakeholders,

Every journey creates milestones with steady progression towards attaining the future vision. With the ‘Ready for more’ attitude, we are persistently progressing towards becoming an eminent business conglomerate and distinguished leader. The experience and prowess, gathered over the years, will underpin our vision of becoming a successful organisation, driven by passion and excellence. We are ‘Ready for more’ in the next phase of growth by developing the business more and more and by creating a unique experience for our elite customers.

We strive for sustainable value creation and achieving our remarkable dream of transforming Jindal into a new-age customer-centric and future-ready organisation. Our intrinsic passion about creating highest quality innovative offerings, to meet the rising consumer expectations, remains the force propelling us to scale new levels of success.

Over the years, we have maintained and achieved a robust revenue growth. This was attained while enhancing our operating margins and return ratios and lowering leverage. This growth was supported by addition of capacities and expanding our distribution reach to tier-2 and 3 cities across India. Together with revenue, we have also consistently enhanced our operating margins.

The change in our product mix, with increased focus towards value-added products and change from polyester blend to cotton blend, substantially improved our price realisation. Going forward, the average price realisation is further expected to increase.

We are working towards building a sustainable business that can withstand all challenges, present and future. Hence, it is important that we continue to be on the lookout for opportunities to invest wisely and build an impeccable product portfolio.

Going forward, the Company is extensively focusing on developing more quality products with varied designs. Currently, we cater different age brackets of customers worldwide and are planning to enter newer markets and territory, for our current products, by adding exports and different brands. The idea is to enter new

possibilities before

obvious.”

markets with high margin business while moving across the value chain. We endeavour to become a one-stop solution provider, strengthening our position in the apparel market, catering domestic as well as global markets.

In the ongoing current situation of COVID-19 Pandemic, we continue to remain cautious and conservative in our approach. Our focus is on maintaining adequate surplus liquidity, prudence in managing credit and operations risk, conserve capital, and even sacrifice growth at the margin, if required.

We are once again geared up to manoeuvre through the tough times with a renewed agility and core strength, along with our deep-rooted values of quality, trust and excellence. As we

continue sowing the seeds of growth and seek new opportunities while inching closer to our mission and aspirations, I sincerely thank all our stakeholders on behalf of the Board and entire leadership team. Their continued guidance and support have not only held our confidence high but also helped us build a value-focused and energised enterprise.

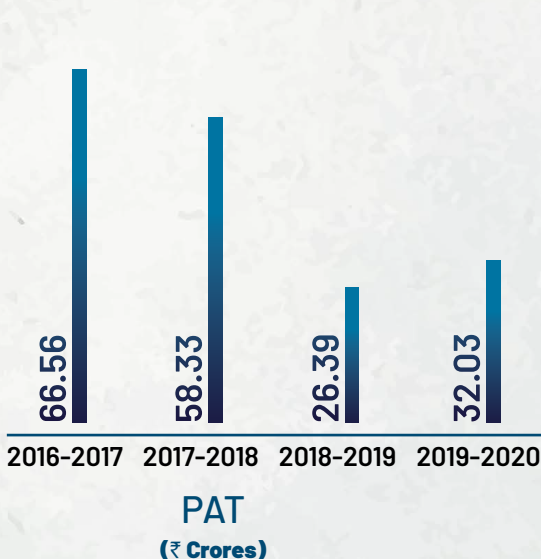

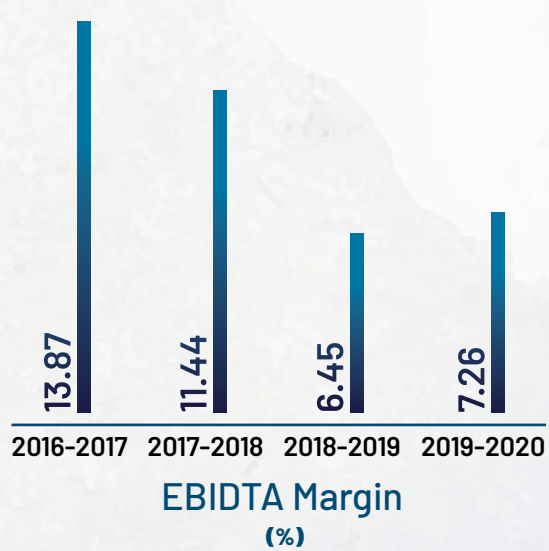

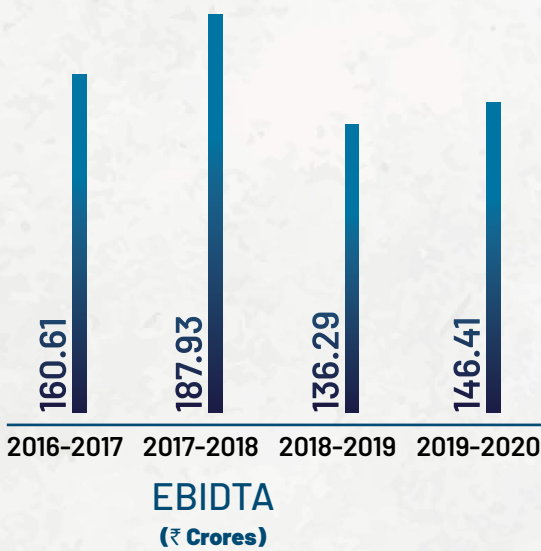

We have the talent, the vision and the conviction. Together, let's use them to continue building a rewarding future !

Yours Sincerely,

Mr. Amit Yamunadutt Agrawal

Product portfolio

Denim

Since inception, denim has retained its prime tag in the product portfolio at Jindal. Over the years, the Company has excelled in the world of denim through innovation and quality consistency in denim engineering. Our clientele includes design houses in Latin America and Europe, among others, indicating higher levels of customer satisfaction that our products offer.

Understanding clients' evolving requirements and continuously innovating to suit their needs is what sets us apart in the global denim market. This ability to understand our clients' needs better makes us the largest manufacturer with a capacity of 140 million metres.

Premium Printed Shirtings

We manufacture premium printed shirtings by using our latest and cutting-edge machinery from Japan, delivering fine and intricate prints for our customers. We use top machinery for singeing, desizing and continuous bleaching range to use the best process in the preparation of the fabric at the initial stage. Supported by the state-of-the-art laboratory for testing parameters, our manufacturing facility processes over 25 million meters per annum.

Bottom Weights

Our world-class technology, equipment and processing and finishing integrated facilities process over 25 million metres of fabric annually. These facilities are capable of processing 3 metres-wide fabric continuously which includes singeing, mercerizing and bleaching to dyeing, printing, finishing and inspection. These capabilities make us the most sophisticated continuous processing facilities across India.

Dyed Yarn

We offer 100% cotton open end yarn, open end slub yarn and TFO Yarns. Jindal has an In-house state-of-the-art polyester texturing plant, manufacturing various products with different ranges.

Ready for more

Wide range of product offerings across categories

Vertically integrated presence with significant capabilities

Differentiation through innovation

Sustainability at the core of the business by implementing best practices, best software and best sustainability practices

Strong track record of customer satisfaction and repeat business

Striving towards excellence with the team to drive excellence in practices and sustainability in the Company

We Care!

Environmental, Social and Governance (ESG)

We give out only the desired textile products!

Every undesired produce is well taken care of as our duty towards humanity and the nature.

Every success is futile if it harms the world and contaminates the surroundings we live in. We, at Jindal, take utmost care and every necessary step to ensure that we add the least to the carbon footprint and use recycling and safe disposal methods to discard harmful components.

Jindal proactively practices the concept of green manufacturing, and continues to push forward pollution control, emission reduction and comprehensive utilisation of resources. Together these help fulfil the social responsibilities of energy conservation and environmental protection to high standards and strict requirements. While continuous efforts are made to increase our intrinsic value and create the maximum return for the shareholders, we are committed to facilitating the sustainable development of the environment in the following manner:

Energy Management

At Jindal, the consumption of energy is inevitable for production. Although its source and steps for regulation and consumption can decrease our carbon footprints.

With usage of LED fixtures, solar panels at our factory premises, we are adding new solutions energy conservation at every level.

We also reuse condensate recovery as process water to save energy while IMS systems' implementation is under process.

Social, Health & Safety

Upholding the core value of 'serving the country and benefiting the people', Jindal takes this as its driving force and mission to facilitate economic development, provide job opportunities, increase income for employees and build a harmonious society, in a bid to contribute to the social and economic development. We consider our team's well being vital to our development. With a healthy work culture and atmosphere we aim to provide an ideal environment for the benefit and growth of every individual.

Zero Liquid Discharge

Our facility is installed with one of the largest zero Liquid discharge denim unit in India.

Waste Management

At Jindal, we recycle our waste textiles as a part of our waste management compliance. We also garnet the waste into fibres which can be recycled and used for textile manufacturing. We also have Caustic Recovery Plant to reuse and process caustic. We regularly keep upgrading our waste management policy across departments to ensure minimal waste.

Captive Power Plant

Our facility is known as India's most energy efficient unit with 'own captive power plant'.

Water Management

Water is the very reason for the existence of life on Earth. As the world wakes up to the water contamination crisis now, we are proud to have always taken the disposal and treatment of wastewater with utmost earnestness.

Jindal has installed very efficient Effluent Treatment Plant which enables maximum recycling of wastewater. Our factory is rainwater harvesting friendly.

1. The Explanatory Statement pursuant to Section 102(1) of the Companies Act, 2013 in respect of the Special Business under item nos. 4 & 5 as stated above is annexed hereto.

Further, pursuant to the Section 152 of the Companies Act, 2013, Regulation 36 of the SEBI (LODR) Regulations, 2015 and Secretarial Standards-2 as issued by Institute of Company Secretaries of India (ICSI), the brief profile and expertise in specific functional areas and other required details pertaining to the Director as recommended for his appointment as “**Non-Executive Independent Director**” in the ensuing Annual General Meeting under Special Business Item No. 5 of the said Notice have been stated and provided in the respective explanatory statements as annexed hereto.

2. The Board of Directors have considered and decided to include the Item Nos. 4 & 5 as stated above as Special Business in the ensuing AGM, being unavoidable in nature.
3. Due to the difficulties faced in view of the Covid-19 Pandemic, the Ministry of Corporate Affairs through the respective Registrar of Companies vide its Order No. ROC-GJ/AGM Ext./2020-21/1462 dated 8th September, 2020 has granted an extension in respect to holding the Annual General Meeting for the Calendar Year 2020 on or before 31st December, 2020 by the Companies instead of 30th September, 2020 and accordingly your Company has opted to avail the aforesaid relaxation and has extended the Annual General Meeting of the Company accordingly.
4. In view of massive outbreak of the Coronavirus Disease 2019 (COVID-19) global pandemic as declared by World Health Organization (WHO) on 11th March, 2020 and its resultant difficulties faced by the stakeholders on account of the threat posed by COVID-19 and the continuing lockdown restrictions on the movements of persons at several places, the Ministry of Corporate Affairs (MCA) vide its General Circular No. 20/2020 dated 5th May, 2020 read with General Circular No. 14/2020 dated 8th April, 2020 and General Circular No. 17/2020 dated 13th April, 2020 (hereinafter known as MCA Circulars) have prescribed for to conduct the Annual General Meeting held during the Calendar Year 2020 through Video Conferencing (VC) mode or Other Audio Visual Means (OAVM) mode or through both the modes i.e. “VC/OAVM and Physical mode (only after having permission from relevant authority)”.

Accordingly, in compliance to the applicable provisions of the Companies Act, 2013 and aforementioned circulars, your Company has opted for to conduct the Annual General Meeting to be held in this Calendar Year 2020 through Video Conferencing (VC) mode or Other Audio Visual Means (OAVM) mode only.

NOTICE OF 34TH ANNUAL GENERAL MEETING (Contd.)

5. Further, in view of the prevailing situations and owing to the difficulties involved in dispatching of physical copies of the Annual Report, the Securities and Exchange Board of India (SEBI) vide its circular Ref. No. SEBI/HO/CFD/CMD1/CIR/P/2020/79 dated 12th May, 2020 (hereinafter known as SEBI Circular) and the MCA vide its aforesaid MCA circulars have prescribed the manner and mode of issue of notices of AGM to the members of the Company and have specifically stated that the notice of AGM to Members may be given/sent only through E-Mail only and that the printing and dispatch of Annual Reports have been dispensed with for the AGM to be held during Calendar Year 2020.

Dispatch of Annual Report through E-Mail: Accordingly, in compliance to the aforementioned circulars, the Annual Report for the Financial Year 2019-2020 of the Company will be sent only through electronic mode only (i.e E-Mail) to those Shareholders of the Company whose E-Mail IDs are registered with the Company or the Registrar and Share Transfer Agent (the "RTA"), i.e., M/s. Cameo India Private Limited.

A printable copy of the said Annual Report alongwith the Notice of the ensuing Annual General Meeting shall also be made available on the website of the Company "www.jindaltextiles.com" and on the website of BSE Limited "www.bseindia.com" and National Stock Exchange of India Limited "www.nseindia.com", before and within the prescribed time limit as per the provisions of the Companies Act, 2013.

5. Keeping the convenience of the Members of the Company positioned in different time zones into consideration, the Annual General Meeting has been scheduled at 3:00 P.M. (IST).
6. As per the prevailing provisions of the Companies Act, 2013, a member entitled to attend and vote at the Annual General Meeting is entitled to appoint a proxy or where that is allowed, one or more proxies, to attend and vote instead of himself/herself and the proxy need not be a member of the Company. However, since Annual General Meeting will be held through VC/OAVM mode where physical attendance of members in any case has been dispensed with, there is no requirement of appointment of proxies in pursuance of the aforementioned MCA Circulars and SEBI Circular specifically wherein SEBI has temporarily dispensed the compliance of Regulation 44(4) of the SEBI (LODR) Regulations, 2015 in case of meetings held through electronic mode only.

Accordingly, the facility of appointment of proxies by members will not be available for the ensuing Annual General meeting of the Company and hence no such Proxy Form is annexed to this Notice convening the 34th Annual General Meeting (AGM) of the Company.

7. **Procedure for attending the AGM through VC/OAVM –** The Company has appointed "Central Depository Services Limited" (CDSL) for rendering its services in regards to the facility to shareholders for attending the AGM through VC/OAVM and to cast the votes thereby through E-Voting facility. The detailed instructions in this regard are provided separately in Section II forming part of this Notice.
8. The requirement to place the matter relating to appointment of Statutory Auditors for ratification by members at every Annual General Meeting is dispensed away with vide notification dated 07th May, 2018 issued by the Ministry of Corporate Affairs, New Delhi. Accordingly, no resolution is proposed for ratification of appointment of Statutory Auditors, who were appointed in the 31st Annual General Meeting held on 27th September, 2017.
9. Pursuant to the provisions of Section 91 of the Companies Act, 2013 read with relevant rules; the Register of Members and Share Transfer Books of the Company will remain closed (Book Closure Period) from **Tuesday, 24th November, 2020 to Monday, 30th November, 2020** (both days inclusive) for the purpose of the 34th Annual General Meeting of the Company.
10. In compliance of the aforementioned MCA circulars, all the documents referred to in the accompanying notice and the Explanatory Statement shall be made available for inspection by the members of the Company through electronic mode only upto the date of 34th Annual General Meeting. Members desirous of inspecting the same may send their requests at "csjindal@jindaltextiles.com" from their registered E-Mail IDs mentioning their names and folio numbers / demat account numbers. Also, such necessary documents shall be made available for inspection upon login at CDSL E-Voting system at "https://www.evotingindia.com/" during the AGM .
11. In case of Joint-holders, the Member whose name appears as the first holder in the order of names as per the Register of Members of the Company will be entitled to vote through E-Voting during the AGM.

NOTICE OF 34TH ANNUAL GENERAL MEETING (Contd.)

12. Members holding shares in terms of physical mode and dematerialized mode are requested to notify immediately; the change of their address, E-Mail IDs and bank particulars/mandate to the Registrar and Share Transfer Agent (M/s. Cameo Corporate Services Limited), the Company and their respective Depository Participants and in case of any queries shareholders can write at “investor@cameoindia.com”; on a separate letter without clubbing it with any other request, for quicker attention.
13. If any of the members are holding shares in the same name or in the same order of names under different folios, then members are requested to notify the same to the Registrar and Share Transfer Agent for consolidation of their shareholding into a single folio.
14. Pursuant to Section 72 of the Companies Act, 2013, members holding shares in physical form may file (a) nomination in the prescribed Form SH-13 and (b) for cancellation / variations in nomination in the prescribed Form SH-14 with the Registrar & Transfer Agent (RTA) of the Company. In respect of shares held in electronic / demat form, the nomination form may be filed with the respective Depository Participant.
15. **MANDATORY UPDATION OF PAN AND BANK ACCOUNT DETAILS:** With reference to SEBI Circular No. SEBI/HO/MIRSD/DOP1/CIR/P/2018/73 dated 20th April, 2018 and SEBI/HO/MIRSD/DOS3/CIR/P/2018/115 dated 16th July, 2018, all the physical shareholders of the Company whose ledger folios have incomplete/incorrect/invalid details with respect to PAN and Bank Account details are required to provide such particulars as are mandatorily required to be furnished to the Company/RTA for recording the same in the respective shareholder records. As a part of compliance of said circulars, the Company had also sent the various reminder letters to the concerned physical shareholders in respect of updation of the aforesaid details alongwith a KYC Updation form in 2018 itself.

Accordingly, as per the communication received from the RTA of the Company, the RTA had put all the folios under ‘Enhanced due diligence’ tag (EDD tag) which falls under any of the following category after completion of the necessary procedures for sending reminder letters to the shareholders:

- a) Where dividend/interest/ redemption remains unpaid for three years & above.
- b) PAN / bank account details not available in the folio.
- c) Any other type of incomplete information in said folios.

Henceforth, all transactions requests received from the folios aged under EDD are being rejected from 15th April, 2019 for EDD & the following documents are called for:

- 1) PAN & Bank mandate (only for folios falling under (b) above),
- 2) Proof of address
- 3) Proof of Identity
- 4) Any one original Utility Bill (Electricity bill/Gas bill/Telephone bill etc.) not older than 3 months.

Thus, for better compliance and for the purpose of updation of the correct and valid details, all the shareholders are requested to fill in the all the details as required in the said “KYC Updation Form” which forms an integral part of this Annual Report and send the signed “KYC Updation Form” to the RTA of the Company and a copy of same at the Registered Office of the Company.

16. **MANDATORY DEMATERIALIZATION OF PHYSICAL SECURITIES:** With reference to the SEBI notification no. SEBI/LAD-NRO/GN/2018/24 dated 8th June, 2018 read with BSE Circular Ref. No. LIST/COMP/15/2018-19 dated 5th July, 2018 and NSE Circular Ref. No. NSE/CML/2018/26 dated 9th July, 2018 and further SEBI Notification no. No. SEBI/LAD-NRO /GN/ 2018/49 dated 30th November, 2018 and press release dated 3rd December, 2018, in regard to the amendment in Regulation 40 of SEBI (LODR) (Fourth Amendment) Regulations, 2018 for mandatory dematerialization of the physical securities upto 31st March 2019 ; all the physical shareholders of the Company were duly requested vide letters dated 09th August, 2018 by the Registrar & Transfer Agent of the Company alongwith two further reminder letters dated 17th October, 2018 and 15th December, 2018, respectively to convert their shares held in physical form into dematerialization form on or before 31st March, 2019.

NOTICE OF 34TH ANNUAL GENERAL MEETING (Contd.)

Thus pursuant to above, the shareholders are thus informed that w.e.f. 1st April, 2019, any request for effecting transfer of shares held in physical form is not being and will not be processed by the RTA or the Company except transmission cases. In case of any queries, the shareholders are requested to kindly contact to the RTA/Company.

Accordingly, key points of the aforesaid circulars are:

- a.) The amendment does not prohibit the investor from holding the shares in physical form, investor has the option of holding shares in physical form even after 31st March, 2019.
- b.) The amendment is not applicable for transmission (i.e. transfer of title of shares by way of inheritance / succession) and transposition (i.e. re arrangement / interchanging of the order of name of shareholders) cases.
- c.) Any investor who is desirous of transferring shares (which are held in physical form) after 31st March, 2019 can do so only after the shares are dematerialized.

The detailed procedure of conversion of physical shares into dematerialization form is available on the website of Central Depository Services (India) Limited (CDSL) i.e. “www.cdslindia.com”, National Securities Depository Limited (NSDL) i.e. “www.nsdl.co.in” and Company i.e. “www.jindaltextiles.com”.

DIRECTORS' REPORT

3. DIVIDEND:

During the year under review and in order to keep a consistent track record of dividend payment, the Company had declared an Interim Dividend of 5% on its paid-up equity share capital i.e. ₹ 0.05/- paise per equity share for the Financial Year 2019-2020 amounting to ₹ 100.26 Lakhs vide approval of Board of Directors in its meeting held on 11th March, 2020 and the same was duly paid to those shareholders whose name appeared in the Register of Members of the Company as on the Record date i.e 21st March, 2020 as provided by the Registrar & Transfer Agent (i.e. M/s. Cameo Corporate Service Limited) of the Company.

Keeping the declaration of Interim Dividend in view and taking into account the prevailing economic situation and the need of resources for future expansion and growth of the Company, your Directors has not recommended the declaration of the Final Dividend for the Financial Year 2019-2020.

4. DIVIDEND DISTRIBUTION POLICY :

Pursuant to Regulation 43A of the SEBI (LODR) Regulations, 2015; Dividend Distribution Policy is not applicable to the Company as the Company is not falling under Top 500 Listed Companies based on its market capitalization as on 31st March, 2020.

Based on the market capitalization as on 31st March, 2020, your Company stood at 630th and 613th Position amongst the Top 1000 Listed Companies of Sensex and Nifty, respectively.

5. AMOUNTS TRANSFERRED TO RESERVES:

During the year under review the Company has not proposed to transfer any amount to the general reserve.

6. CORPORATE SOCIAL RESPONSIBILITY (CSR):

Pursuant to Section 135 of the Companies Act, 2013 and rules made there under, the Company has constituted Corporate Social Responsibility Committee. The Committee has adopted and approved the policy on Corporate Social Responsibilities which lists out guidelines for undertaking CSR activities by the Company and the same is available on the website of the Company on the web link: "http://www.jindaltextiles.com/investor-data/policies/CSR_POLICY.pdf"

The Report on CSR activities as required under the Companies (Corporate Social Responsibility Policy) Rules, 2014 is annexed as "**Annexure – A**" which forms an integral part of this Annual Report.

Further, the composition, number and dates of meeting held, attendance of the members of the Committee at the meeting are given separately in the attached Corporate Governance report.

7. NOMINATION AND REMUNERATION POLICY:

Pursuant to provisions of Section 178 of the Companies Act, 2013, the Board of Directors has framed a policy which prescribe the framework in relation to remuneration of Directors, Key Managerial Personnel and Senior Management of the Company. This policy also lays down criteria for selection and appointment of Board Members. The details of this policy are explained in the Corporate Governance Report.

8. REPORT ON RISK MANAGEMENT :

Pursuant to Regulation 21 of the SEBI (LODR) Regulations, 2015, the Company is not required to constitute a Risk Management Committee as the said regulation is applicable only to Top 500 Listed Entities determined on the basis of market capitalization, as at the end of the immediate previous Financial Year.

The Company has in place an appropriate Risk Management Policy which has been developed by the Senior Management in accordance with the business strategy. It consist of three essential elements viz. Risk Assessment, Risk Management and its Mitigation and Risk Monitoring. It is designed in such a manner to provide the categorization of risk as below into threat and its cause, impact, treatment and control measures:

a.) Strategic Risks: which includes geographical concentration of its manufacturing capacity, reputational risk, changing customer preference from cotton to blends & business continuity planning. Emerging businesses, capital expenditure for capacity expansion etc, are normal strategic risks faced by the Company. However, the Company has well-defined processes and procedures for obtaining approvals for investments in new businesses and capacity expansions.

DIRECTORS' REPORT

- b.) Regulatory Risks:** which include changes in taxation regime, bilateral/multilateral trade agreements, government policies with respect to textiles & regulatory compliances. The Company's business may be affected by interest rates, changes in Government policy, taxation and other economic developments in the Indian and overseas market in which the Company operates.
- c.) Commodity Risk:** which is exposed to the risk of price fluctuations of raw materials as well as finished goods. The Company proactively manages these risks through forward booking, inventory management and proactive vendor development practices. The Company's reputation for quality, product differentiation and service, coupled with the existence of powerful brand image with a robust marketing network mitigates the impact of price risk on finished goods.
- d.) Financial Risks:** Volatility in financial markets including fluctuations in interest rates impact the Company's cash flows including debt financing. The Company is exposed to various risks in relation to financial instruments such as Credit Risk, Liquidity Risk, Market Risks and Interest Rates Risk.
- e.) Operational Risks:** The Company's operations and financial condition could be adversely affected if it is unable to successfully implement its growth strategies. Competition from others, or changes in the products or processes of the Company's customers, could reduce market prices and demand for the Company's products, thereby reducing its cash flow and profitability.

During the year under review, Jindal's risk management framework enabled the organization to respond effectively to the crisis situation caused by the COVID-19 pandemic outbreak. The pandemic risk was identified and proactive measures were initiated to ensure customer deliverables were not impacted while also safeguarding the health and safety of the employees of the Company. Also, the Company had an unfortunate incidence of fire at its factory premises on 29th October, 2019, the effects of which was calculated and proper measures were taken due to the effective Risk Management Policy of the Company.

9. BUSINESS EXPANSION & MODERNISATION:

The Company continues to endeavor/deliver robust growth and expansion plans in a manner which shall be beneficial to the interests of the Company and also to the shareholders. The Company continuously looks for opportunities for expanding its product line with a vision towards future growth, operations and expansion of business portfolio and thus in order to achieve the vision, your Company has started climbing the ladder of success by marking its presence globally around the world viz. Colombia, Egypt, Lethoso etc. through its qualitative, innovative and technology driven products with a growing pull of customers, our clients diaries includes the best brands across the world viz. like Marks & Spencers, Oliver, Carrefour, H&M, Street One and others.

Further, to accelerate innovations and future growth, Modernization & Technological upgradation is being carried out on by the Company for maintaining the best quality standards through in-house stringent cost control measures supporting rapid expansion.

35. IMPACT OF COVID-19 PANDEMIC :

The massive outbreak of COVID-19 pandemic has severely impacted economies, businesses and social set ups across the globe and in India and the same has forced the Government of India to declare nation-wide lockdown on 24th March, 2020, which has impacted normal business operations of the Indian Corporates. The spread of COVID-19 and the consequent lockdowns, disruptions in transportation and supply chains, travel bans, quarantines, social distancing and other such emergency measures have caused widespread disruptions in the economy and businesses.

With respect to Jindal, the ongoing Covid-19 Pandemic has resulted into business disruption in labour supply, raw material unavailability, working capital constraints and restricted demand due to limited movement of people and purchasing ability. Further due to closure of office and factory premises, the Company faced a slowdown in production which is likely to improve and normalize very soon.

In the first phase of Lockdown, the Company was not in operation as the factory and office premises remained closed resulted into operations of office and manufacturing unit to a halt, which has impacted the sales performance of the Company. Further

DIRECTORS' REPORT

after obtaining necessary regulatory approvals and clearances, it re-started its operations w.e.f. 20th April, 2020 with partial/reduced capacity of workers and employees adhering to all the safety norms as prescribed by Government of India.

In order to secure the employees and workers from any health hazard, the Company has taken all the precautionary and safety measures relating to hygiene and maintenance of social distancing norms both at corporate office and factory premises through routine cleaning and disinfection/sanitization, thermal screening, mandatory usage of masks and hand gloves and frequent use of sanitizers. It has also installed automatic sanitizing tunnel in the entrance of the premises. It also ensured the use of Arogya Setu application.

As far as the ability to service the debts and other financial arrangements are concerned, the Company has been able to service its debts and other financial arrangements due to moratorium granted by the RBI for the period of 6 months and further relaxations from time to time. There was no impact on the assets of the Company. The Company have kept it ready for operations, as soon as demand picks up. Further, there was no impact on internal financial controls.

The Management believes that it has taken into account all the known impacts arising from COVID-19 pandemic in the preparation of the Annual financial statements. However, the situation is unprecedented, while the lockdown is gradually lifting, the impact assessment of COVID-19 is a continuing process given the uncertainties associated with its nature and duration. Management will continue to monitor any material changes to future economic conditions and the impact thereof.

The impact of COVID-19 on the Annual financial statements of the Company is separately mentioned in the Notes to the Annual financial statements which forms an integral part of this Annual Report.

36. AWARDS & ACCOLADES:

Ms. Deepali Agrawal	Independent Director

3. AVERAGE NET PROFIT OF THE COMPANY FOR LAST THREE FINANCIAL YEARS (I.E 2016-2017, 2017-2018 & 2018-2019): ₹ 47,96,13,580/-

4. PRESCRIBED CSR EXPENDITURE (2% OF POINT NO 3 ABOVE) : ₹ 95,92,272/-

5. DETAILS OF CSR ACTIVITIES/PROJECTS UNDERTAKEN DURING THE YEAR:

- Total amount to be spent for Financial Year 2019-2020 – ₹ 95,92,272/-
- Total amount spent for Financial Year 2019-2020 – ₹ 16,26,551/-
- Excess Amount Spent – NIL
- Amount un-spent (for Financial Year 2019-2020) – ₹ 79,65,721/-

DIRECTORS' REPORT

e) Manner in which the amount spent during Financial Year 2019-2020 is as detailed below:

(Amount in ₹)

Sr. No.	CSR project/ activity identified	Sector	Location	Amount outlay (budget) project/ programme wise	Amount spent on the projects or programs- Direct expenditure and Overheads	Cumulative spend up to the reporting period	Amount spent Direct/ through implementing agency

6. JUSTIFICATION FOR UNSPENT AMOUNT OUT OF 2% OF THE AVERAGE NET PROFIT OF THE LAST 3 FINANCIAL YEARS OR ANY PART THEREOF:

The Company considers the social responsibility as an integral part of its business activities and always endeavors to utilize allocable CSR budget for the benefit of society, to promote education and health, to eradicate poverty and is on the journey of its ascertained CSR programmes since applicability of the provisions of the CSR.

During the Financial Year under review, the Company endeavored to meet the budgeted expenditure by contributing in various eligible CSR activities and therefore has committed to incur expenditure for CSR initiatives through structured events or programs and projects.

During the Financial year under review, the aggregate amount required to be spent towards CSR Activities was ₹ 95,92,272/-, however the Company has spent ₹ 16,26,551/- into various trusts and organizations committed to bring about a notable change and development in various downtrodden sectors of the society.

DIRECTORS' REPORT

However, there was a short spent of ₹ 79,65,721/- towards the CSR activities due to the fact that the Company found it difficult to search for the reliable, suitable and viable NGOs which are scalable, sustainable and have potential to be replicated across locations and who can create a sustainable and measurable impact in the community. Also, due to the unprecedented situation of COVID-19 outbreak, the Company's objective of CSR outlay for the Financial Year ended 31st March, 2020 has also been impeded which resulted into the amount un-spent as stated above.

The Company is in the process of identifying the right charitable institutes to be associated with which has vis-a-vis same purpose as that of company CSR Policy. As a socially responsible Company, the Company travels further in exploring new opportunities and continuing the identification of the trust worthy and reliable NGO' which shall align to its CSR policy and with the Schedule VII of the Companies Act, 2013 and is committed to create maximum impact on the society at large over the coming years.

7. A RESPONSIBILITY STATEMENT BY THE CSR COMMITTEE IS APPENDED BELOW-

We the Members of Corporate Social Responsibility Committee hereby confirm that the implementation and monitoring of CSR Policy is in compliance with CSR objectives and Policy of the Company.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Pursuant to Regulation 34(2)(e) and Schedule V of SEBI (LODR) Regulations, 2015

Your Board of Directors is pleased to share with you the “Management Discussion and Analysis Report” for the Financial Year ended on 31st March, 2020.

COMPANY OVERVIEW & ANNUAL PERFORMANCE-

Incorporated in 1986, Jindal Worldwide Limited (“the Company”) having its registered office situated in the State of Gujarat, Ahmedabad has become a well-established and one of the leading manufacturers and suppliers of denim fabric across the globe and has marked its remarkable footprints in the Textile industry. The Company has grown steadily on the back of strong capacities, technology edge and deep understanding of customer requirements. By offering innovative designs and high-quality fabrics, it has always delivered superior value and comfort for its customers across geographies.

The Company’s broad product range aside from denim fabric includes premium printed shirting, dyed yarn and bottom weights amongst others. During the year, the Company displayed satisfactory performance amidst challenging market conditions. Our total income (Revenue) on Standalone basis moderated to ₹ 2024.04 Crores from ₹ 2,119.52 Crores, a drop of 4.5% as compared to the previous year. Further, the total income (Revenue) on consolidated basis stood at ₹ 2205.57 Crores.

Despite turbulent times, the Company’s net profit after tax on standalone basis increased by 21.35% to ₹ 32.02 Crores during the year. While the net profit after tax on consolidated basis decreased by 7.38% to ₹ 28.41 Crores. The business was impacted by a surge in raw material prices and stretched working capital requirements. Though the Company’s performance was impacted due to business and environmental conditions, it sees demand significantly increasing in the coming years. Moving ahead, the Company remains poised to implement key initiatives across various functions to enable itself to face market challenges and leverage the emerging opportunities available globally. It remains focused on improving revenue growth and profitability.

DIRECTORS' REPORT

• GLOBAL ECONOMY OVERVIEW-

During the year under review, the global economy was in the process of a synchronized downswing in 90% of the World economies. The global real GDP growth in CY 2019 was 2.9% compared to 3.6% in CY 2018, reflecting escalated trade disputes, wide ranging policy disputes and slow manufacturing activities and public & private investments. Uncertainty around Brexit fading added challenges to the European and British economic growth prospects. Despite all this, the economic situation was just beginning to stabilize, however, with the outbreak of the Covid-19 pandemic, the entire World economy came to a complete halt starting with China. Restrictions on movement of people, goods & services and containment measures began to have a draconic effect across the globe in the last quarter of the year under review.

In the light of Covid-19 crisis, IMF has estimated the global economic growth to decline by -4.9% in 2020. However, it is projected to reach 5.4% growth in 2021 with policy support and fiscal reforms, diminished pandemic impact and increased investor confidence.

• INDIAN ECONOMY OVERVIEW-

During 2019-2020, the Indian economy witnessed a series of challenges given the decline in overall investments, private consumption and regulatory uncertainty. Additionally, liquidity issues in the NBFC sector and rural distress further impacted the economy. The Central Government and the Reserve Bank of India (RBI) announced various structural reforms to counter these challenges and restore the growth trend. These reforms include corporate tax rate cut, liquidity infusion, liberalising FDI norms and accommodative policy reforms among others.

However, the fourth quarter of the financial year witnessed inopportune outbreak of the Covid-19 pandemic. The Government imposed a nation-wide lockdown in multiple phases to curb the pandemic. As a consequence, the pace of growth across sectors along with private consumption and investments saw a sharp decline and was a drag on growth for the full year. Overall, the economy grew by 4.2% in 2019-2020, which is the slowest pace in the past 11 years.

• OUTLOOK-

The jolt from the coronavirus outbreak will weigh significantly on the Indian economic growth until the pandemic is brought under control. The prolonged financial stress on account of Covid-19 pandemic and employment loss has increased the probability of a more entrenched weakening of the Indian economy. The lockdown has brought manufacturing and services to a grinding halt, prompting many to predict that the economy may contract in 2020-2021. However, stimulus packages extended by the Government from time to time to support the economy should help mitigate the challenges and revive the economic growth in the long-term.

• GLOBAL TEXTILE AND APPAREL INDUSTRY-

The global textile market was valued at USD 961.5 Bn in 2019. The global textile and apparel industry has evolved over the years, witnessing multiple changes in consumption and production patterns. The US and EU countries constitute the major consumption market for textiles and apparel industry. However, with abundant raw materials and cheap labour, a large part of the industry is moving towards China, South and South-East Asia. India and China are emerging as a preferred sourcing and consumption hub backed by robust textile manufacturing base. Moreover, rising disposable income, growing population, and rapid urbanization in the emerging economies such as India, China, Brazil and Mexico are driving the textile and apparel market growth.

COVID-19 pandemic in the fourth quarter of 2019-2020 impacted the textile industry globally with production stagnation, supply chain disruptions and market closures. The resultant effect led to subdued exports and consumption numbers.

Since the global textile and apparel industry supply chain is highly integrated in nature, the Covid-19 impact will be seen in the near-term. However, with rising demand, raw material availability and lower labour cost in the developing countries, the industry is expected to display a CAGR of 4.3% from 2020 to 2027.

DIRECTORS' REPORT

• INDIAN TEXTILE INDUSTRY OVERVIEW-

India is the second largest manufacturing hub in the global textile landscape. The textile industry plays a vital role in the economic growth by contributing to over 13% of industrial output and over 2% of GDP. The country's textile industry is driven by a strong production base with a wide array of yarns, fibres and fabrics. The Indian textile and apparel market was worth US\$ 108 Billion in 2019.

During the year under review, the industry witnessed headwinds in the form of liquidity crunch, cost pressure, fluctuating cotton prices and Covid-19 induced production disruption. The garment sector was adversely impacted with slow demand and deferment and cancellation of orders in domestic and international markets. The turbulent scenario led to muted sales growth and moderation in profitability.

The year ahead looks grim for the Indian textile industry as both domestic consumption as well as export demand would be affected at least in the 1st half of 2020-2021. Considering the significant impact of Covid-19 on the Indian textile value chain due to global market contraction and a subdued Indian market, the sector needs to leverage on its inherent strengths in order to bounce back. There could be opportunities resulting from global retailers wanting to diversify away from China. Recovery will also be dependent on gradual fading of the pandemic and the measures taken by the Government to revive the economy as well as the support it extends to the textile industry.

• GOVERNMENT INITIATIVES-

The Government has announced various measures for the textile industry which will help mitigate the current crisis and drive the growth trend.

- 1) A National Technical Textiles Mission has been proposed in the Union Budget 2020-2021, for a period from 2020-2021 to 2023-2024 worth ₹ 1,480 Crores (USD 211.76 mn. This mission will boost the growth of technical textile market.
- 2) The Government allotted ₹ 762 Crores for Amended Technology Upgradation Fund Scheme (ATUFS).
- 3) The anti-dumping duty on Purified Terephthalic Acid (PTA) which is a critical raw material for textile fibres and yarns has been abolished. This announcement will provide the much-needed thrust to the entire man-made fibre based value chain.
- 4) The Government approved the extension of Rebate of State and Central Taxes & Levies (RoSCTL) on export of garments and made-ups from 01st April, 2020 until the scheme is merged with Remission of Duties and Taxes on Exported Products (RoDTEP). This will support exports and enhance the competitiveness of the textile sector.
- 5) In order to boost the labour intensive small and medium scale apparel manufacturers, the Government has announced to pay the entire employee provident fund for establishments with up to 100 employees where 90% of the employees are earning less than ₹ 15,000 per month.

• GLOBAL DENIM INDUSTRY-

The phenomenal growth of the global denim wear market over the years is attributed to the fact that denim jeans have become a necessity and wardrobe staple for many across the world. Denim has also revealed its capability to overcome age and gender barriers.

It has now transcended the boundaries of casual attire and can be worn on social and even official occasions.

Europe and USA are the dominant markets in the denim market. However, Asia-Pacific is fast emerging as an attractive destination for denim manufacturers. The industry suffered low sales owing to the disruption caused by Covid-19 pandemic across the globe. However, growing target population across the globe, rapid urbanization and rise in consumer disposable income levels, especially in emerging countries like India and China, are projected to drive the market in the long-term.

Furthermore, changing consumer lifestyles and a significant rise in the female workforce participation rate in both developed and emerging economies have contributed to the increasing product demand. Constant product innovations such as distressed, embroidered, metal studded, and bell bottomed jeans coupled with developments in material design and style will drive the market further. Increasing the number of e-commerce platforms and internet and smartphone users is likely to support product sales through online channels.

DIRECTORS' REPORT

The amplified implementation of sustainable manufacturing by merchants is among the notable factors propelling the growth of the denim jeans market. The global denim jeans market has the potential to grow by USD 14.38 million during 2020-2024.

• INDIAN DENIM INDUSTRY-

Within the overall Indian apparel market, the denim wear market has evolved significantly over the last couple of years. The industry has witnessed rapid growth, triggered by its style quotient, rising visibility of fast-fashion brands and increasing usage of western wear by fashion conscious youth. The change in classification of consumer wardrobe has acted as a growth driver for denim wear in India.

India is among the leading denim manufacturing countries in the world, with a capacity of about 1700-1800 million metres of denims per annum. However, the capacity remained underutilized over the years with annual exports being hardly 200-250 Mn metres. The entire denim industry supply chain was impacted severely during the year, owing to the pandemic-induced lockdown. Demand slowdown with discretionary consumer spending led to low sales for most of the denim manufacturers in the country.

Innovation and digitalization are seen as the key to helping the denim industry rebound in the post-Covid era. With growing penetration of online channels, brand recognition and quality consciousness; there is huge opportunity for growth in denim wear. The large youth population, infiltrating urbanization and growing preference towards western wear in semi-urban and rural areas are acting as a boost to denim industry. Indian denim wear market is estimated to grow at CAGR of 12% and reach ₹ 91,894 Crores by 2028.

- **DISCLOSURE OF ACCOUNTING TREATMENT-**

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind-AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) (Amendment) Rules, 2016 read with Section 133 of the Companies Act, 2013.

- **FUTURE OUTLOOK-**

The lockdown necessitated by the COVID-19 pandemic is expected to hit the Company's businesses very substantially in the Financial Year 2020-2021. The Company expects the economy to shrink, and tight regulations on operations through the industry. As the extent of the coronavirus impact is yet to be ascertained, we see significant downside risks to the forecasts. A lot will depend on the virus epidemiology, the effectiveness of control measures, and the development of therapeutics and vaccines. The Company with its inherent strengths like visionary leadership, well-known brands, ultra-modern manufacturing facilities, aggressive marketing strategies and deeply penetrated distribution network, the Company is confident to tide over this difficult phase too.

The Company has a solid foundation in place and, with streamlined and strengthened portfolio. The Company is well-positioned in the textile market and aims to achieve more and more in the upcoming years ahead.

DIRECTORS' REPORT

PRINCIPLE 2- Business/ Product Life Cycle Sustainability:

Environment sustainability, employee health and safety are the core importance at Jindal throughout its business and manufacturing processes beginning from planning to execution stage. The Company through its robust commitment ensures compliance with relevant standards of health and safety wherein appropriate health and safety elements across manufacturing activities, delivery and consumption are identified and evaluated. Further, the Company strives to reduce its environmental impact through various initiatives in the field of Energy Conservation as described in 'Annexure-D' of the Directors' Report.

Sr. No	Questions	Response
1.	List up to 3 of your products or services whose design has incorporated social or environmental concerns, risks and/or opportunities.	The Company is broadly engaged into Manufacturing of Denim Fabric, Dyed Yarn, Bottom Weights & Premium Printed Shirtings and it incorporates principles of Environmental Management Systems (EMS) in their management system practices as part of their operations.
2.	For each such product, provide the following details in respect of resource use (energy, water, raw material etc.) per unit of product(optional): a. Reduction during sourcing/ production/distribution achieved since the previous year throughout the value chain? b. Reduction during usage by consumers (energy, water) has been achieved since the previous year?	The Company continuously strives to innovate and unlock the value of its product to present the best to its customers. At the same time being a socially responsible citizen, the Company reconciles economy with ecology. The Company throughout its business and manufacturing processes beginning from planning to execution stage, continuously endeavors to make the products durable with multi attributes so as to reduce the burden on resources as it continues to conserve energy and minimize the usage of resources every year in comparison to the usage of previous year in order to have a sustainable environment and as a commitment to it and as a step ahead for utilizing alternate sources of energy, the Company has continued the utilization of Solar Power Plant of capacity 999 KWp at the rooftop of Factory premises. Further, as an additional initiative, the Company has completed the installation of Captive Power Plant at its Factory Premises. The measures stated above has led to better pollution control and high energy conservation, has reduced adverse impact on environment and thus resulted into increased environmental quality and higher savings of resources which further must have prevented future resources depletion. The Company has energy conservation equipment such as LED Lights, Capacitors, AC drives, Energy saving Water Pumps and etc.
3.	Does the company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably? Also, provide details thereof, in about 50 words or so.	Sustainable Sourcing is the integration of social, ethical and environmental performance factors into the process of selecting suppliers. The Company believes in investing time and effort in building mutually beneficial relationships. Improving performance in environmental, social and ethical issues is a major part of the overall processes of the Company. However the Company do not have the set procedure for sustainable sourcing but it strives to all such related factors throughout its value chain.
4.	Has the company taken any steps to procure goods and services from local & small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve their capacity and capability of local and small vendors?	Yes. The Company's key intent is to help local suppliers scale up and improve their operations by ensuring sustainable livelihood in the neighborhood of its operations and expects to build stronger and long-term ties with them. It also reduces the time, cost and efforts in procurement, apart from being responsible for the growth of supply base around our locations. Preference is also given to micro, small and medium enterprises (MSME) for business opportunity and upliftment of lower middle class. In activities where we require un-skilled manpower such as job work etc., use of local manpower is preferred providing them with employment opportunities. CORPORATE GOVERNANCE REPORT

“Chapter IV read with Schedule V of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015”

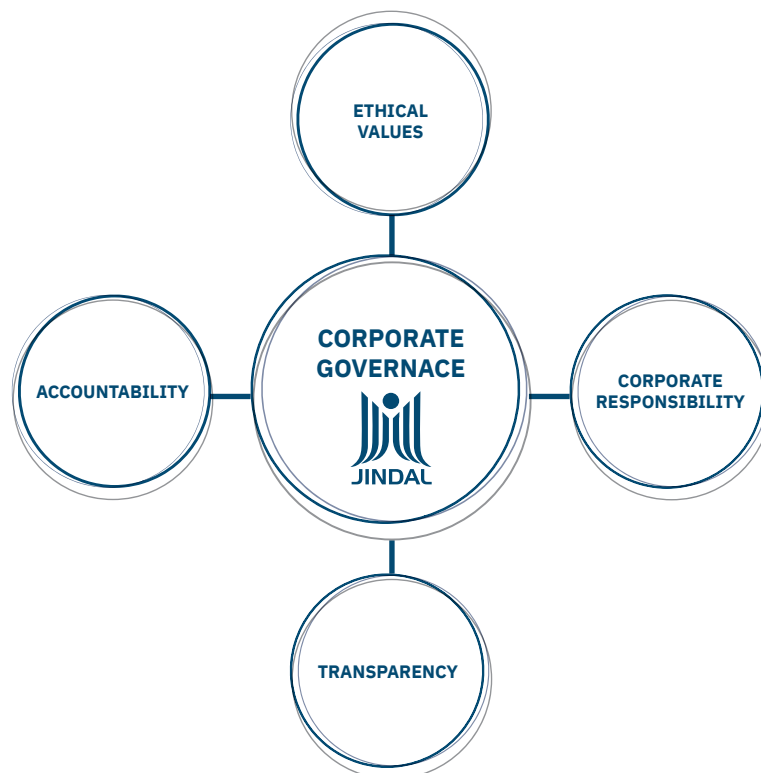

1. COMPANY’S PHILOSOPHY ON CORPORATE GOVERNANCE:

“**JINDAL WORLDWIDE LIMITED**” (JWL) is committed to conduct its business based on the highest standards of Corporate Governance. At JWL, Corporate Governance has been an integral part of the way we have been doing our business since inception. We believe that Good Corporate Governance emerges from the application of the best and sound management practices and compliance with laws coupled with highest standard of transparency and business ethics. Further it helps to build an environment of trust, transparency and accountability amongst employees, value chain, community, investors and the Government which results into fostering long-term investment, financial stability and business integrity and supporting stronger growth.

Corporate Governance is not merely compliance and not simply a matter of creating checks & balances. It is an ongoing measure of superior delivery of Company’s objects with a view to translate opportunities in reality. The Company places great emphasis on value such as empowerment and integrity of its employees, safety of the employees & communities surrounding the plant, transparency in the decision making process, fair and ethical dealing with all, pollution free environment and last but not least, accountability to all the stakeholders.

To succeed, we believe, it requires highest standards of ethical corporate behavior towards everyone we work with, the communities we touch and the environment on which we have an impact and thus the primary objective is to develop and adhere to a corporate culture of harmonious and transparent functioning, increasing employee and client satisfaction and enhancing shareholders’ wealth by developing capabilities and identifying opportunities that best serve the goal of value creation.

Corporate Governance is a journey to constantly improve sustainable value creation for our Members, our people and our business partners alongwith competitive and profitable growth. The above principles have been the guiding force for whatever we do and shall continue to be so in the years to come.

CORPORATE GOVERNANCE REPORT

The Board considers itself as a trustee of its shareholders and acknowledges its responsibilities towards them for creation and safeguarding their wealth on sustainable basis. Our Corporate Governance framework ensures that we make timely disclosures and share accurate information regarding our financials and performance, as well as the leadership and governance of the Company. Our Corporate Governance philosophy is based on the following principles:

- Corporate Governance standards should go beyond the law and satisfy the spirit of law, not just the letter of the law;
- Transparency and independence in the functions of the Board;
- Have a simple and transparent corporate structure driven solely by business needs;
- Attainment of the highest levels of transparency, accountability and equity, in all facets of its operation, and in all its interaction with its stakeholders, including shareholders, employees and the government;
- Appropriate composition and size of the Board, with each member having expertise in their respective areas;
- Timely and accurate disclosure on all matters concerning operations and performance of the Company; and
- Systems and processes are in place for internal control.

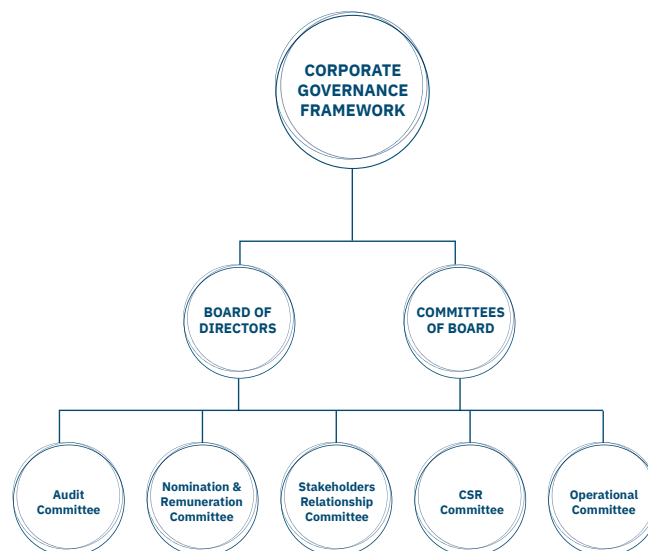

We firmly believe that Board’s independence is essential to bring objectivity and transparency in the management and in the dealings of the Company. Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone financial statements of **JINDAL WORLDWIDE LIMITED**, CIN:L17110GJ1986PLC008942 ("the Company"), which comprises the Balance Sheet as at 31st March, 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and notes to the Standalone financial statements, including a summary of the significant accounting policies and other explanatory information. The Financial Statements of five divisions of the Company have been audited and signed by M/s. B.A. Bedawala & Company, Chartered Accountants and relied upon by us for the merger of the Financial statements.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2020, and the profit, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone financial statements Section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant for audit of financial statement under the provisions of the Act and the Rules made thereunder and we have fulfilled our ethical requirements that are relevant to our audit of the Standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters :

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Standalone Financial Statements of the current year. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent Auditor's Report on Standalone Financial Statements (Contd.)

Key Audit Matter	Auditor's Response
<p>Assessment of carrying value of equity investments in subsidiaries and associates and fair value of other investments</p> <p>The Company has equity investments in various subsidiaries, associate, and other companies. The accounting for investments is a Key Audit Matter as the determination of recoverable value for impairment assessment/fair valuation involves significant management judgement.</p> <p>The Company accounts for equity investments in subsidiaries and associates at cost (subject to impairment assessment)</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> We obtained an understanding from the management, assessed and tested the design and operating effectiveness of the Company's key controls over the impairment assessment and fair valuation of material investments. We assessed the carrying value/fair value calculations of all individually material investments, where applicable, to determine whether the valuations performed by the Company were within an acceptable range determined by us and the auditor's valuation experts. We evaluated the cash flow forecasts (with underlying economic growth rate) by comparing them to the approved budgets and our understanding of the internal and external factors. We had discussions with management to obtain an understanding of the relevant factors in respect of certain investments carried at fair value where a wide range of fair values were possible due to various factors such as absence of recent observable transactions, restrictions on transfer of shares, existence of multiple valuation techniques, investee's varied nature of portfolio of investments for which significant estimates/judgements are required to arrive at fair value. We evaluated the adequacy of the disclosures made in the Standalone Financial Statements. <p>Based on the above procedures performed, we did not identify any significant exceptions in the management's assessment in relation to the carrying value of equity investments in subsidiaries, associates and other investments.</p>

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the company's financial reporting process.

Independent Auditor's Report on Standalone Financial Statements (Contd.)

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Companies Act, 2013 we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone financial statements, including the disclosures, and whether the Standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements for the financial year ended 31st March, 2020 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Companies Act, 2013 we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

Independent Auditor's Report on Standalone Financial Statements (Contd.)

- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of cash flows dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid Standalone financial statements comply with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Companies Act, 2013.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended :

In our opinion and to the best of our information and according to the explanations given to us, the Company has paid the remuneration to its directors during the year, which is within the limits prescribed under the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone Ind AS financial statements – Refer Note 42 to the standalone Ind AS financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. All the unpaid/unclaimed amounts under Section 125 of the Companies Act, 2013 as required to be transferred to the Investor Education and Protection Fund by the Company were duly transferred.
2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-Section (11) of Section 143 of the Companies Act, 2013, we give in the "Annexure-B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

Independent Auditor's Report on Standalone Financial Statements (Contd.)

Annexure - A to the Independent Auditors' Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' Section of our Report of even date)

Report on the Internal Financial Controls over financial reporting under Clause (i) of sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of JINDAL WORLDWIDE LIMITED ("the Company") as on 31st March, 2020 in conjunction with our audit of Standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the Company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Standalone financial statements.

Independent Auditor's Report on Standalone Financial Statements (Contd.)

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal financial control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTE 2: BASIS OF PREPARATION

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) (Amendment) Rules, 2016.

For all periods up to and including the year ended 31st March, 2017, the Company prepared its financial statements in accordance accounting standards notified under the Section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). These financial statements for the year ended 31st March, 2018 are the first the Company has prepared in accordance with Ind AS. (Refer Note 4.1 for information on how the Company has adopted Ind AS.)

The financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

The financial statements are presented in Indian rupees (INR) and all values are are presented in lakhs, except otherwise indicated.

NOTE 3: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Current vs Non Current Classification

The Company presents assets and liabilities in the Balance Sheet base on current/non-current classification.

An asset is current when it is:

- i) Expected to be realised or intended to be sold or consumed in normal operating cycle
- ii) Held primarily for the purpose of trading
- iii) Expected to be realised within twelve months after the reporting period, or
- iv) Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current

A liability is current when it is:

- i) Expected to be settled in normal operating cycle
- ii) Held primarily for the purpose of trading
- iii) Due to be settled within twelve months after the reporting period, or
- iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are treated as non-current

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Notes forming part of Standalone Financial Statement

For the year ended 31st March, 2020 (Contd.)

3.2 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable net of discounts, taking into account contractually defined terms and inclusive of excise duty, taking into account contractually defined terms of payment excluding taxes or duties collected on behalf of the government.

Sale of goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership have been transferred to the buyer. Revenue is measured at fair value of the consideration received or receivable, inclusive of excise duty and net off sales tax/ value added tax, trade discounts, returns and allowances, price difference adjustments, volume discounts, liquidated damages and special discounts passed on to customers. No revenue is recognised if there are significant uncertainties regarding recovery of the amount due, associated costs or the possible return of goods.

Interest income

Interest income is recognised using effective interest method (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross amount of the financial asset or to the amortised cost of a financial liability. When calculating the EIR, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but doesn't consider the expected credit losses. Interest income is included in the other income in the Statement of Profit and Loss.

Dividend income

Dividend income from investments is recognised when the shareholder's rights to receive payment have been established.

Rental income

Rental income from investment properties and subletting of properties is recognised on a straight line basis over the term of the relevant leases.

3.3 Inventories

- (i) **Raw materials, components and stores and spares:** At lower of cost or net realisable value. Cost represents purchase price and other direct costs and is determined on a moving weighted average cost basis. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.
- (ii) **Work-in-progress:** At lower of cost or net realisable value. Cost for this purpose includes material, labour and appropriate allocation of overheads (based on normal operating capacity). Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a moving weighted average cost basis.
- (iii) **Finished goods:**
At lower of cost or net realisable value.
- (iv) **Goods in Transit:**
Goods-in-transit are valued at actual cost incurred up to the date of balance sheet.

3.4 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

Notes forming part of Standalone Financial Statement

For the year ended 31st March, 2020 (Contd.)

3.5 Property, plant and equipment (PPE)

Property, plant and equipment, capital work in progress and investment property are stated at cost of acquisition or construction net of accumulated depreciation and impairment loss (if any). All significant costs relating to the acquisition and installation of property, plant and equipment/ investment property are capitalised. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the Statement of Profit and Loss during the financial period in which they are incurred.

Borrowing cost relating to acquisition / construction of property, plant and equipment and investment property which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Depreciation is calculated on Straight Line method using the rates arrived at based on the useful lives estimated by the management. Further, pursuant to the notification of Schedule II of the Companies Act 2013, by the Ministry of Corporate Affairs effective 01st April, 2014, the management has internally reassessed and changed, wherever necessary the useful lives to compute depreciation, to conform to the requirements of the Companies Act, 2013.

Depreciation and Amortisation

Depreciation is charged on the basis of useful life of assets on SLM method which are as follows:-

Asset Category	Life in Year	Basis for useful life
Factory Building*	30	Life as prescribed under Schedule-II of Companies Act, 2013
Building- Non Factory	60	
Plant and Machinery	15	
Office Equipments	5	
Electrical Installations	10	
Computers	3	
Furniture and Fixtures	10	
Vehicles	8/10	
Networks and servers	6	

*Depreciation on factory building at leasehold land is charged over the period of lease by SLM method.

Freehold land is carried at cost.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is derecognized.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

3.6 Intangible assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of the assets can be measured reliably.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried

Notes forming part of Standalone Financial Statement

For the year ended 31st March, 2020 (Contd.)

at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Intangible assets with finite life are amortized on a written down value basis over the estimated useful economic life of 3 years.

3.7 Employees benefits

Short term employee benefits

Short term benefits comprise of employee costs such as salaries, bonuses, and accumulated absents are accrued in the year in which the associated services are rendered by employees of the Company and are measured at the amounts expected to be paid when the liabilities are settled.

The liabilities are presented as current employee benefit obligations in the balance sheet.

3.8 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

3.9 Leases

Ind AS 116 supersedes Ind AS 17 Leases and Appendix C to Ind AS 17 determining whether an Arrangement contains a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases.

Lessor accounting under Ind AS 116 is substantially unchanged from Ind AS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in Ind AS 17. Therefore, Ind AS 116 did not have an impact for leases where the Company is the lessor.

The Company as a lessee

In the Comparative period, a lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease.

Notes forming part of Standalone Financial Statement

For the year ended 31st March, 2020 (Contd.)

Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on the borrowing costs. Contingent rentals are recognised as expenses in the periods in which they are incurred.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

The Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease unless the payments are structured to increase in line with general inflation to compensate expected inflationary cost increase. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership are transferred from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

3.10 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

3.11 Government Grants

Grants and subsidies from the government are recognized if the following conditions are satisfied.

- There is reasonable assurance that the Company will comply with the conditions attached to it; and
- Such benefits are earned and reasonable certainty exists of the collection

Government Grants are recognized where there is reasonable assurance that the Company has complied with the conditions attached to them and that the grant will be received. Revenue Grants (State) are recognized in the statement of Profit and Loss and are shown under Other Income & Interest Subsidy received under TUF scheme (Central) has been shown by reducing the Finance Cost. Electricity subsidy received during the year has been recognized in the statement of Profit & Loss by reducing the Electricity Consumption Expense.

3.12 Taxes

The tax expense for the period comprises current and deferred tax. Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Notes forming part of Standalone Financial Statement

For the year ended 31st March, 2020 (Contd.)

Current income tax

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the taxation laws prevailing and applicable for the relevant assessment year. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax

Deferred income taxes are recognised for the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their tax bases in the financial statements. The effect on deferred tax assets and liabilities of a change in the tax rates is recognised using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the same taxable entity and the same taxation authority.

Tax Reconciliations

The Company has elected to exercise the option of a lower tax rate provided under Section 115BAA of the Income-tax Act, 1961, as introduced by the Taxation Laws (Amendment) Ordinance, 2019 dated 20th September, 2019. Accordingly, the Company has recognised provision for income tax for the year ended and remeasured its deferred tax assets basis the rate provided in the said Section.

3.13 Impairment of non-financial assets

At each balance sheet date, the Company reviews the carrying values of its property, plant and equipment and intangible assets to determine whether there is any indication that the carrying value of those assets may not be recoverable through continuing use. If any such indication exists, the recoverable amount of the asset is reviewed in order to determine the extent of impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. An impairment loss is recognised in the statement of profit and loss as and when the carrying value of an asset exceeds its recoverable amount.

Where an impairment loss subsequently reverses, the carrying value of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount so that the increased carrying value does not exceed the carrying value that would have been determined had no impairment loss been recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognised in the statement of profit and loss immediately

3.14 Provisions, contingent liabilities, contingent assets and commitments

A provision is recognised when there is a present legal or constructive obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, and in respect of which a reliable estimate can be made. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. A disclosure for a contingent liability is made where there is a possible obligation arising out of past event, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation arising out of past event where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Notes forming part of Standalone Financial Statement

For the year ended 31st March, 2020 (Contd.)

3.15 Foreign currency transactions

The standalone financial statements are presented in currency INR, which is also the functional currency of the Company. Functional currency is the currency of the primary economic environment in which the entity operates.

In preparing the financial statements, transactions in currencies other than the Company's functional currency are recorded at the rates of exchange prevailing on the date of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are re-translated at the rates prevailing at the end of the reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not translated.

3.16 Fair value disclosures for financial assets and financial liabilities

The management believes that the fair values of non-current financial assets (e.g. Investments at FVPL, loans and others), current financial assets (e.g. cash equivalents, trade and other receivables, loans), non-current financial liabilities and current financial liabilities (e.g. Trade payables and other payables and others) approximate their carrying amounts. The Company has not performed a fair valuation of its investment in unquoted equity shares other than subsidiary, which are classified as FVOCI (refer Note 4), as the Company believes that impact of change on account of fair value is insignificant. Fair value of quoted investment in mutual fund is determined by reference to available net asset value (NAV) available from respective Assets Management Companies ('AMC').

3.17 Fair value measurement

The Company measures financial instruments, such as, investments and derivatives, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- > In the principal market for the asset or liability, or
- > In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- > Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- > Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- > Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Notes forming part of Standalone Financial Statement

For the year ended 31st March, 2020 (Contd.)

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's Management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted/quoted financial assets measured at fair value.

External valuers are involved for valuation of unquoted financial assets and financial liabilities. Involvement of external valuers is decided upon annually by the Management. Selection criteria includes market knowledge, reputation, independence and whether professional standards are maintained. The Management decides, after discussions with The Company's external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the Company analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the Company verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Company, in conjunction with the Company's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable on a yearly basis.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3.18 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

A) Debt instruments

i) Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows,
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to loans, security deposits given, trade and other receivables.

Notes forming part of Standalone Financial Statement

For the year ended 31st March, 2020 (Contd.)

ii) Debt instrument at FVTOCI

A debt instrument is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has not classified any financial asset into this category.

iii) Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

B) Equity instruments

All equity instruments are subsequently measured at fair value in the balance sheet, with value changes recognised in statement of profit and loss, except for those equity instruments for which the Company has elected to present value changes in "other comprehensive income". If an equity instrument is not held for trading, the Company may make an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income. The Company makes such election on an instrument by instrument basis.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

The Company has elected to present all equity instruments, other than those in subsidiary, through FVTPL and all subsequent changes are recognized in Statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- > The rights to receive cash flows from the asset have expired, or
- > The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Notes forming part of Standalone Financial Statement

For the year ended 31st March, 2020 (Contd.)

Impairment of financial assets

The Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure;

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g. loans, debt securities, deposits, trade receivables and bank balances
- b) Financial assets that are debt instruments and are measured as at other comprehensive income (FVTOCI)
- c) Lease receivables under Ind AS 17
- d) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115 and Ind AS 18

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- > Trade receivables or contract revenue receivables; and
- > All lease receivables resulting from transactions within the scope of Ind AS 17

Under the simplified approach the Company does not track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk said initial recognition. If credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in subsequent period the credit risk reduces since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analysed. The Company has presumed that default doesn't occur later than when a financial asset is 90 days past due.

ECL is the difference between all contracted cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original EIR. ECL impairment loss allowance (or reversal) recognised during the period is recognised as income / (expense) in the statement of profit and loss (P&L). This amount is reflected under the head "Other Expense" in the P&L. The impairment loss is presented as an allowance in the Balance Sheet as a reduction from the net carrying amount of the trade receivable, loan, deposits and lease receivable respectively.

Financial liabilities

Initial recognition and measurement

All financial liabilities are initially recognised at fair value. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdraft and derivative financial instruments.

Subsequent measurement

Subsequent measurement of financial liabilities depends on their classification as fair value through Profit and loss or at amortized cost.

All changes in fair value of financial liabilities classified as FVTPL is recognized in the Statement of Profit and Loss. Amortised cost category is applicable to loans and borrowings, trade and other payables. After initial recognition the financial liabilities are measured at amortised cost using the EIR method. Gains and losses are recognized in profit and loss when the liabilities are derecognized as well as through the EIR amortization process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or cost that are integral part of the EIR. The EIR amortization is included as finance cost in the Statement of Profit and Loss.

Notes forming part of Standalone Financial Statement

For the year ended 31st March, 2020 (Contd.)

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Derivative financial instruments

The Company uses derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value through profit or loss (FVTPL) on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivative financial instrument are recognised in the statement of profit and loss.

Reclassification of financial instruments

After initial recognition, no reclassification is made for financial assets which are equity instruments. For financial assets, which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. If the Company reclassifies the financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in the business model.

Offsetting financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

NOTE 4: SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

The Company has considered the possible effects that may result from the pandemic relating to COVID-19 on the carrying amounts of loans. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including credit reports and related information, economic forecasts. The company has performed sensitivity analysis on the assumptions used and based on current estimates expects the carrying amount of these assets will be recovered. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these condensed financial statements.

Notes forming part of Standalone Financial Statement

For the year ended 31st March, 2020 (Contd.)

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance being tested. The recoverable amount is sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

Depreciation

Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

Taxes

Deferred tax assets are recognised for unused tax credits to the extent that it is probable that taxable profit will be available against which the credits can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

4.1 Other Disclosures

Events Occurring After Balance - Sheet

The Company evaluates events and transactions that occur subsequent to the balance sheet date but prior to the approval of financial statements to determine the necessity for recognition and/or reporting of any of these events and transactions in the financial statements. As of 31st March, 2020, there were no subsequent events to be recognised or reported that are not already disclosed.

Impact of Covid – 19

In the last week of March 2020, an outbreak situation arose in India on account of COVID-2019. The Company has considered such outbreak situation as subsequent event to the Balance Sheet date i.e., 31st March, 2020 in terms of Ind AS 10 "Reporting on Event After Balance Sheet Date" and has assessed the operational and financial risk on going forward basis though Company's operations continued in the given situation.

In assessing the impact on the recoverability of financial and non-financial assets, the Company has considered internal and external information up to the date of approval of these financial statements including credit reports and economic forecasts whereby it expects to recover the carrying amounts of the assets. The Company has performed sensitivity analysis on the assumptions used on assessing the impact on the Company's operations. On overall basis, the management does not see any medium to long term risks in the Company's ability to continue as a going concern and meeting its liabilities as and when they fall due, and compliance with the debt covenants, as applicable.

The impact on the operations and earnings/ cashflows of the Company due to COVID- 2019 outbreak may be different from that estimated as at date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions.

The Company continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls. The Company's policy is to deal only with creditworthy counterparties only.

(b) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due.

(c) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest risk, currency risk and other price risk. Financial instruments affected by market risk include borrowings, deposits, Investments, trade and other receivables, trade and other payables and derivative financial instruments.

(d) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company does not have any long term borrowings with floating interest rate and carrying short term borrowings with floating interest rate. The company's investment in fixed deposit deposit carries fixed interest rate.

NOTE 44: RECENT ACCOUNTING PRONOUNCEMENTS

Standards issued but not yet effective

The amendments to standards that are issued and new standards issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective. The Ministry of Corporate Affairs ("MCA") has issued certain amendments to Ind AS through (Indian Accounting Standards) Amendment Rules, 2019. These amendments maintain convergence with IFRS by incorporating amendments issued by International Accounting Standards Board (IASB) into Ind AS and has amended/issued the following standards:

New and amended standards adopted by the Company

1. Ind AS 116-Leases

Nature of the effect of adoption of Ind AS 116

The Company has lease contracts for land. Before the adoption of Ind AS 116, the Company classified each of its leases (as lessee) at the inception date as either a finance lease or an operating lease. A lease was classified as a finance lease if it transferred substantially all of the risks and rewards incidental to ownership of the leased asset to the Company; otherwise it was classified as an operating lease. Finance leases were capitalised at the commencement of the lease at the inception date at fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments were apportioned between interest (recognised as finance costs) and reduction of the lease liability.

In an operating lease, the leased property was not capitalised and the lease payments were recognised as rent expense in profit or loss on a straight-line basis over the lease term. Any prepaid rent and accrued rent were recognised under Prepayments and Trade and other payables, respectively.

Leases previously classified as finance leases

The Company did not change the initial carrying amounts of recognised assets and liabilities at the date of initial application for leases previously classified as finance leases (i.e., the right-of-use assets and lease liabilities equal the lease assets and liabilities recognised under Ind AS 17). The requirements of Ind AS 116 was applied to these leases from 01st April, 2019.

Leases previously accounted for as operating leases

The Company does not have any assets on operating lease.

The effect of adoption Ind AS 116 as at 01st April, 2019

The Company has adopted Ind AS 116 Leases, using the modified retrospective approach and applied the Standard to its leases on a prospective basis. The adoption of the standard did not have any impact to the financial results.

Summary of new accounting policies

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Company is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating a lease, if the lease term reflects the Company exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of property, plant and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Significant judgement in determining the lease term of contracts with renewal options

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

2. 'Ind AS 12 - Income Taxes - Appendix C, Uncertainty over Income Tax Treatments:-

The amendment to Appendix C of Ind AS 12 specifies that the amendment is to be applied to the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit/loss, tax bases, unused tax losses, unused tax credits and tax rates. The standard permits two possible methods of transition - i) Full retrospective approach – Under this approach, Appendix C will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors, without using hindsight and ii) Retrospectively with cumulative effect of initially applying Appendix C recognized by adjusting equity on initial application, without adjusting comparatives. The effective date for adoption of Ind AS 12 Appendix C is annual periods beginning on or after 01st April, 2019. The Company has adopted the standard on 01st April, 2019 and has decided to adjust the cumulative effect in equity on the date of initial application i.e. 01st April, 2019 if any without adjusting comparatives. The effect on adoption of Ind AS 12 Appendix C would be insignificant in the standalone financial statements.

Notes forming part of Standalone Financial Statement

For the year ended 31st March, 2020 (Contd.)

3. Amendment to Ind AS 19 – Employee benefit - plan amendment, curtailment or settlement

The amendments require an entity to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and to recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling. The adoption of the standard did not have any material impact to the financial statements.

NOTE 45:

In accordance with the provisions of Section 135 of the Companies Act 2013, the Board of Directors of the Company had constituted a Corporate Social Responsibility (CSR) Committee. In terms with the provisions of the said Act, the Company has spent a sum of ₹ 1626551/- (previous year ₹ 10036932/-) towards CSR activities during the year ended 31st March, 2020.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated financial statements of **JINDAL WORLDWIDE LIMITED**, CIN:L17110GJ1986PLC008942 ("the Company"), which comprises the Balance Sheet as at 31st March, 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and notes to the Consolidated financial statements, including a summary of the significant accounting policies and other explanatory information. The Financial Statements of five divisions of the Company have been audited and signed by M/s. B.A.Bedawala & Company, Chartered Accountants and relied upon by us for the merger of the Financial statements.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2020, and the profit, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the consolidated financial statements Section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant for audit of consolidated financial statement under the provisions of the Act and the Rules made thereunder and we have fulfilled our ethical requirements that are relevant to our audit of the Consolidated financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters:

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Consolidated Financial Statements of the current year. These matters were addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent Auditor's Report on Consolidated Financial Statements (Contd.)

Key Audit Matter	Auditor's Response
<p>Assessment of carrying value of equity investments in subsidiaries and associates and fair value of other investments</p> <p>The Company has equity investments in various subsidiaries, associate, and other companies. The accounting for investments is a Key Audit Matter as the determination of recoverable value for impairment assessment/fair valuation involves significant management judgement.</p> <p>The Company accounts for equity investments in subsidiaries and associates at cost (subject to impairment assessment)</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> We obtained an understanding from the management, assessed and tested the design and operating effectiveness of the Company's key controls over the impairment assessment and fair valuation of material investments. We assessed the carrying value/fair value calculations of all individually material investments, where applicable, to determine whether the valuations performed by the Company were within an acceptable range determined by us and the auditor's valuation experts. We evaluated the cash flow forecasts (with underlying economic growth rate) by comparing them to the approved budgets and our understanding of the internal and external factors. We had discussions with management to obtain an understanding of the relevant factors in respect of certain investments carried at fair value where a wide range of fair values were possible due to various factors such as absence of recent observable transactions, restrictions on transfer of shares, existence of multiple valuation techniques, investee's varied nature of portfolio of investments for which significant estimates/judgements are required to arrive at fair value. We evaluated the adequacy of the disclosures made in the Consolidated Financial Statements. <p>Based on the above procedures performed, we did not identify any significant exceptions in the management's assessment in relation to the carrying value of equity investments in subsidiaries, associates and other investments.</p>

Management's Responsibility for the consolidated financial statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Consolidated financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Independent Auditor's Report on Consolidated Financial Statements (Contd.)

Auditor's Responsibility for the Audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Companies Act, 2013 we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Ind AS financial statements for the financial year ended 31st March, 2020 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Companies Act, 2013 we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

Independent Auditor's Report on Consolidated Financial Statements (Contd.)

- b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of cash flows dealt with by this Report are in agreement with the books of account.
- d) In our opinion, the aforesaid Consolidated financial statements comply with the Indian Accounting Standards (Ind AS) specified under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Companies Act, 2013.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended :

In our opinion and to the best of our information and according to the explanations given to us, the Company has paid the remuneration to its directors during the year, which is within the limits prescribed under the Act.

- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Consolidated Ind AS financial statements – Refer Note 43 to the consolidated Ind AS financial statements.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. All the unpaid/unclaimed amounts under Section 125 of the Companies Act, 2013 as required to be transferred to the Investor Education and Protection Fund by the Company were duly transferred.
2. The Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, shall not apply to the auditors report on Consolidated Financial Statements.

Independent Auditor's Report on Consolidated Financial Statements (Contd.)

Annexure - A to the Independent Auditors' Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' Section of our Report of even date)

Report on the Internal Financial Controls over financial reporting under Clause (i) of sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of JINDAL WORLDWIDE LIMITED ("the Company") as on 31st March, 2020 in conjunction with our audit of Consolidated financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the Consolidated financial statements.

Independent Auditor's Report on Consolidated Financial Statements (Contd.)

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal financial control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

NOTE 2: BASIS OF PREPARATION

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended by the Companies (Indian Accounting Standards) (Amendment) Rules, 2016.

For all periods up to and including the year ended 31st March, 2017, the Company prepared its financial statements in accordance accounting standards notified under the Section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP). These financial statements for the year ended 31st March, 2018 are the first the Company has prepared in accordance with Ind AS. (Refer Note 4.1 for information on how the Company has adopted Ind AS.)

The financial statements have been prepared on the historical cost basis, except for certain financial instruments which are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

The financial statements are presented in Indian rupees (INR) and all values are are presented in lakhs, except otherwise indicated.

NOTE 3: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

3.1 Current vs Non Current Classification

The Company presents assets and liabilities in the Balance Sheet base on current/non-current classification.

An asset is current when it is:

- i) Expected to be realised or intended to be sold or consumed in normal operating cycle
- ii) Held primarily for the purpose of trading
- iii) Expected to be realised within twelve months after the reporting period, or
- iv) Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current

A liability is current when it is:

- i) Expected to be settled in normal operating cycle
- ii) Held primarily for the purpose of trading
- iii) Due to be settled within twelve months after the reporting period, or
- iv) There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are treated as non-current

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Notes forming part of Consolidated Financial Statement

For the year ended 31st March, 2020 (Contd.)

3.2 Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable net of discounts, taking into account contractually defined terms and inclusive of excise duty, taking into account contractually defined terms of payment excluding taxes or duties collected on behalf of the government.

Sale of goods

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership have been transferred to the buyer. Revenue is measured at fair value of the consideration received or receivable, inclusive of excise duty and net off sales tax/ value added tax, trade discounts, returns and allowances, price difference adjustments, volume discounts, liquidated damages and special discounts passed on to customers. No revenue is recognised if there are significant uncertainties regarding recovery of the amount due, associated costs or the possible return of goods.

Interest income

Interest income is recognised using effective interest method (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross amount of the financial asset or to the amortised cost of a financial liability. When calculating the EIR, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but doesn't consider the expected credit losses. Interest income is included in the other income in the Statement of Profit and Loss.

Dividend income

Dividend income from investments is recognised when the shareholder's rights to receive payment have been established.

Rental income

Rental income from investment properties and subletting of properties is recognised on a straight line basis over the term of the relevant leases.

3.3 Inventories

- (i) **Raw materials, components and stores and spares:** At lower of cost or net realisable value. Cost represents purchase price and other direct costs and is determined on a moving weighted average cost basis. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.
- (ii) **Work-in-progress:** At lower of cost or net realisable value. Cost for this purpose includes material, labour and appropriate allocation of overheads (based on normal operating capacity). Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Cost is determined on a moving weighted average cost basis.
- (iii) **Finished goods:**
 - a) **Manufactured** - At lower of cost or net realisable value. Cost for this purpose includes material, labour and appropriate allocation of overheads (based on normal operating capacity). Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Excise duty on inventory lying with the Company is added to the cost of the finished goods inventory. Cost is determined on a weighted average basis.
 - b) **Traded** - At lower of cost or net realisable value. Cost represents purchase price and other direct costs and is determined on a weighted average cost basis. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition.

At lower of cost or net realisable value.

(iv) Goods in Transit

Goods-in-transit are valued at actual cost incurred up to the date of balance sheet.

Notes forming part of Consolidated Financial Statement

For the year ended 31st March, 2020 (Contd.)

3.4 Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

3.5 Property, plant and equipment (PPE)

Property, plant and equipment, capital work in progress and investment property are stated at cost of acquisition or construction net of accumulated depreciation and impairment loss (if any). All significant costs relating to the acquisition and installation of property, plant and equipment/ investment property are capitalised. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the Statement of Profit and Loss during the financial period in which they are incurred.

Borrowing cost relating to acquisition / construction of property, plant and equipment and investment property which take substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Depreciation is calculated on Straight Line method using the rates arrived at based on the useful lives estimated by the management. Further, pursuant to the notification of Schedule II of the Companies Act 2013, by the Ministry of Corporate Affairs effective 01st April, 2014, the management has internally reassessed and changed, wherever necessary the useful lives to compute depreciation, to conform to the requirements of the Companies Act, 2013.

Depreciation and Amortisation

Depreciation is charged on the basis of useful life of assets on SLM method which are as follows:-

Asset Category	Life in Year	Basis for useful life
Factory Building*	30	Life as prescribed under Schedule-II of Companies Act, 2013
Building- Non Factory	60	
Plant and Machinery	15	
Office Equipments	5	
Electrical Installations	10	
Computers	3	
Furniture and Fixtures	10	
Vehicles	8/10	
Networks and servers	6	

*Depreciation on factory building at leasehold land is charged over the period of lease by SLM method.

Freehold land is carried at cost.

An item of property, plant and equipment and any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the Statement of Profit and Loss when the asset is derecognized.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

Notes forming part of Consolidated Financial Statement

For the year ended 31st March, 2020 (Contd.)

3.6 Intangible assets

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of the assets can be measured reliably.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

Intangible assets with indefinite useful lives are not amortised, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Intangible assets with finite life are amortized on a written down value basis over the estimated useful economic life of 3 years.

3.7 Employees benefits

Short term employee benefits

Short term benefits comprise of employee costs such as salaries, bonuses, and accumulated absents are accrued in the year in which the associated services are rendered by employees of the Company and are measured at the amounts expected to be paid when the liabilities are settled.

The liabilities are presented as current employee benefit obligations in the balance sheet.

3.8 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

3.9 Leases

Ind AS 116 supersedes Ind AS 17 Leases and Appendix C to Ind AS 17 determining whether an Arrangement contains a Lease. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases.

Lessor accounting under Ind AS 116 is substantially unchanged from Ind AS 17. Lessors will continue to classify leases as either operating or finance leases using similar principles as in Ind AS 17. Therefore, Ind AS 116 did not have an impact for leases where the Company is the lessor.

Notes forming part of Consolidated Financial Statement

For the year ended 31st March, 2020 (Contd.)

The Company as a lessee

In the Comparative period, a lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease.

Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on the borrowing costs. Contingent rentals are recognised as expenses in the periods in which they are incurred.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

The Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease unless the payments are structured to increase in line with general inflation to compensate expected inflationary cost increase. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

Leases are classified as finance leases when substantially all of the risks and rewards of ownership are transferred from the Company to the lessee. Amounts due from lessees under finance leases are recorded as receivables at the Company's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the net investment outstanding in respect of the lease.

3.10 Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

3.11 Government Grants

Grants and subsidies from the government are recognized if the following conditions are satisfied.

- There is reasonable assurance that the Company will comply with the conditions attached to it; and
- Such benefits are earned and reasonable certainty exists of the collection.

Government Grants are recognized where there is reasonable assurance that the Company has complied with the conditions attached to them and that the grant will be received. Revenue Grants (State) are recognized in the statement of Profit and Loss and are shown under Other Income & Interest Subsidy received under TUF scheme (Central) has been shown by reducing the Finance Cost. Electricity subsidy received during the year has been recognized in the statement of Profit & Loss by reducing the Electricity Consumption Expense.

3.12 Taxes

The tax expense for the period comprises current and deferred tax. Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Current income tax

Current tax is measured at the amount expected to be paid to the tax authorities in accordance with the taxation laws prevailing and applicable for the relevant assessment year. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred tax

Deferred income taxes are recognised for the future tax consequences attributable to temporary differences between the financial statement carrying amounts of existing assets and liabilities and their tax bases in the financial statements. The effect on deferred tax assets and liabilities of a change in the tax rates is recognised using the tax rates and tax laws that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to set-off current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to the same taxable entity and the same taxation authority.

Tax Reconciliations

The Company has elected to exercise the option of a lower tax rate provided under Section 115BAA of the Income-tax Act, 1961, as introduced by the Taxation Laws (Amendment) Ordinance, 2019 dated 20th September, 2019. Accordingly, the Company has recognised provision for income tax for the year ended and remeasured its deferred tax assets basis the rate provided in the said Section.

3.13 Impairment of non-financial assets

At each balance sheet date, the Company reviews the carrying values of its property, plant and equipment and intangible assets to determine whether there is any indication that the carrying value of those assets may not be recoverable through continuing use. If any such indication exists, the recoverable amount of the asset is reviewed in order to determine the extent of impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. An impairment loss is recognised in the statement of profit and loss as and when the carrying value of an asset exceeds its recoverable amount.

Where an impairment loss subsequently reverses, the carrying value of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount so that the increased carrying value does not exceed the carrying value that would have been determined had no impairment loss been recognised for the asset (or cash generating unit) in prior years. A reversal of an impairment loss is recognised in the statement of profit and loss immediately

3.14 Provisions, contingent liabilities, contingent assets and commitments

A provision is recognised when there is a present legal or constructive obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, and in respect of which a reliable estimate can be made. These are reviewed at each Balance Sheet date and adjusted to reflect the current best estimates. A disclosure for a contingent liability is made where there is a possible obligation arising out of past event, the existence of which will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation arising out of past event where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

Notes forming part of Consolidated Financial Statement

For the year ended 31st March, 2020 (Contd.)

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

3.15 Foreign currency transactions

The standalone financial statements are presented in currency INR, which is also the functional currency of the Company. Functional currency is the currency of the primary economic environment in which the entity operates.

In preparing the financial statements, transactions in currencies other than the Company's functional currency are recorded at the rates of exchange prevailing on the date of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are re-translated at the rates prevailing at the end of the reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not translated.

3.16 Fair value disclosures for financial assets and financial liabilities

The management believes that the fair values of non-current financial assets (e.g. Investments at FVPL, loans and others), current financial assets (e.g. , cash equivalents, trade and other receivables, loans), non-current financial liabilities and current financial liabilities (e.g Trade payables and other payables and others) approximate their carrying amounts. The Company has not performed a fair valuation of its investment in unquoted equity shares other than subsidiary, which are classified as FVOCI (refer Note 4), as the Company believes that impact of change on account of fair value is insignificant. Fair value of quoted investment in mutual fund is determined by reference to available net asset value (NAV) available from respective Assets Management Companies ("AMC")

3.17 Fair value measurement

The Company measures financial instruments, such as, investments and derivatives, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- > In the principal market for the asset or liability, or
- > In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- > Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- > Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Notes forming part of Consolidated Financial Statement

For the year ended 31st March, 2020 (Contd.)

- > Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's Management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted/quoted financial assets measured at fair value.

External valuers are involved for valuation of unquoted financial assets and financial liabilities. Involvement of external valuers is decided upon annually by the Management. Selection criteria includes market knowledge, reputation, independence and whether professional standards are maintained. The Management decides, after discussions with The Company's external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the Company analyses the movements in the values of assets and liabilities which are required to be remeasured or re-assessed as per the Company's accounting policies. For this analysis, the Company verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

The Company, in conjunction with the Company's external valuers, also compares the change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable on a yearly basis.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

3.18 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

A) Debt instruments

i) Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- (a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows,
- (b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to loans, security deposits given, trade and other receivables.

Notes forming part of Consolidated Financial Statement

For the year ended 31st March, 2020 (Contd.)

ii) Debt instrument at FVTOCI

A debt instrument is subsequently measured at fair value through other comprehensive income if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The Company has not classified any financial asset into this category.

iii) Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

B) Equity instruments

All equity instruments are subsequently measured at fair value in the balance sheet, with value changes recognised in statement of profit and loss, except for those equity instruments for which the Company has elected to present value changes in "other comprehensive income". If an equity instrument is not held for trading, the Company may make an irrevocable election for its investments which are classified as equity instruments to present the subsequent changes in fair value in other comprehensive income. The Company makes such election on an instrument by instrument basis.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, The Company may transfer the cumulative gain or loss within equity.

The Company has elected to present all equity instruments, other than those in subsidiary, through FVTPL and all subsequent changes are recognized in Statement of Profit and Loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- > The rights to receive cash flows from the asset have expired, or
- > The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Notes forming part of Consolidated Financial Statement

For the year ended 31st March, 2020 (Contd.)

Impairment of financial assets

The Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure;

- a) Financial assets that are debt instruments, and are measured at amortised cost e.g. loans, debt securities, deposits, trade receivables and bank balances
- b) Financial assets that are debt instruments and are measured as at other comprehensive income (FVTOCI)
- c) Lease receivables under Ind AS 17
- d) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115 and Ind AS 18

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- > Trade receivables or contract revenue receivables; and
- > All lease receivables resulting from transactions within the scope of Ind AS 17

Under the simplified approach the Company does not track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk said initial recognition. If credit risk has not increased significantly, 12 month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in subsequent period the credit risk reduces since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward looking estimates are analysed. The Company has presumed that default doesn't occur later than when a financial asset is 90 days past due.

ECL is the difference between all contracted cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original EIR. ECL impairment loss allowance (or reversal) recognised during the period is recognised as income / (expense) in the statement of profit and loss (P&L). This amount is reflected under the head "Other Expense" in the P&L. The impairment loss is presented as an allowance in the Balance Sheet as a reduction from the net carrying amount of the trade receivable, loan, deposits and lease receivable respectively.

Financial liabilities

Initial recognition and measurement

All financial liabilities are initially recognised at fair value. The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdraft and derivative financial instruments.

Subsequent measurement

Subsequent measurement of financial liabilities depends on their classification as fair value through Profit and loss or at amortized cost.

All changes in fair value of financial liabilities classified as FVTPL is recognized in the Statement of Profit and Loss. Amortised cost category is applicable to loans and borrowings, trade and other payables. After initial recognition the financial liabilities are measured at amortised cost using the EIR method. Gains and losses are recognized in profit and loss when the liabilities are derecognized as well as through the EIR amortization process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or cost that are integral part of the EIR. The EIR

Notes forming part of Consolidated Financial Statement

For the year ended 31st March, 2020 (Contd.)

amortization is included as finance cost in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Derivative financial instruments

The Company uses derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are initially recognised at fair value through profit or loss (FVTPL) on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivative financial instrument are recognised in the statement of profit and loss.

Reclassification of financial instruments

After initial recognition, no reclassification is made for financial assets which are equity instruments. For financial assets, which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. If the Company reclassifies the financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in the business model.

Offsetting financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

NOTE 4: SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

The Company has considered the possible effects that may result from the pandemic relating to COVID-19 on the carrying amounts of loans. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial statements has used internal and external sources of information including credit reports and related information, economic forecasts. The company has performed sensitivity analysis on the assumptions used and based on current estimates expects the carrying amount of these assets will be recovered. The impact of COVID-19 on the Company's financial statements may differ from that estimated as at the date of approval of these condensed financial statements.

Notes forming part of Consolidated Financial Statement

For the year ended 31st March, 2020 (Contd.)

Impairment of non-financial assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow model. The cash flows are derived from the budget for the next five years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance being tested. The recoverable amount is sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

Depreciation

Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

Taxes

Deferred tax assets are recognised for unused tax credits to the extent that it is probable that taxable profit will be available against which the credits can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

4.1 Other Disclosures

Events Occurring After Balance - Sheet

The Company evaluates events and transactions that occur subsequent to the balance sheet date but prior to the approval of financial statements to determine the necessity for recognition and/or reporting of any of these events and transactions in the financial statements. As of 31st March, 2020, there were no subsequent events to be recognised or reported that are not already disclosed.

Impact of Covid – 19

In the last week of March 2020, an outbreak situation arose in India on account of COVID-2019. The Company has considered such outbreak situation as subsequent event to the Balance Sheet date i.e., 31st March, 2020 in terms of Ind AS 10 "Reporting on Event After Balance Sheet Date" and has assessed the operational and financial risk on going forward basis though Company's operations continued in the given situation.

In assessing the impact on the recoverability of financial and non-financial assets, the Company has considered internal and external information up to the date of approval of these financial statements including credit reports and economic forecasts whereby it expects to recover the carrying amounts of the assets. The Company has performed sensitivity analysis on the assumptions used on assessing the impact on the Company's operations. On overall basis, the management does not see any medium to long term risks in the Company's ability to continue as a going concern and meeting its liabilities as and when they fall due, and compliance with the debt covenants, as applicable.

The impact on the operations and earnings/ cashflows of the Company due to COVID- 2019 outbreak may be different from that estimated as at date of approval of these financial statements and the Company will continue to closely monitor any material changes to future economic conditions.

NOTE 46: RECENT ACCOUNTING PRONOUNCEMENTS

The amendments to standards that are issued and new standards issued, but not yet effective, up to the date of issuance of the Company's financial statements are disclosed below. The Company intends to adopt these standards, if applicable, when they become effective. The Ministry of Corporate Affairs ("MCA") has issued certain amendments to Ind AS through (Indian Accounting Standards) Amendment Rules, 2019. These amendments maintain convergence with IFRS by incorporating amendments issued by International Accounting Standards Board (IASB) into Ind AS and has amended/issued the following standards:

New and amended standards adopted by the Company

1. Ind AS 116-Leases

Nature of the effect of adoption of Ind AS 116

The Company has lease contracts for land. Before the adoption of Ind AS 116, the Company classified each of its leases (as lessee) at the inception date as either a finance lease or an operating lease. A lease was classified as a finance lease if it transferred substantially all of the risks and rewards incidental to ownership of the leased asset to the Company; otherwise it was classified as an operating lease. Finance leases were capitalised at the commencement of the lease at the inception date at fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments were apportioned between interest (recognised as finance costs) and reduction of the lease liability.

In an operating lease, the leased property was not capitalised and the lease payments were recognised as rent expense in profit or loss on a straight-line basis over the lease term. Any prepaid rent and accrued rent were recognised under Prepayments and Trade and other payables, respectively.

Leases previously classified as finance leases

The Company did not change the initial carrying amounts of recognised assets and liabilities at the date of initial application for leases previously classified as finance leases (i.e., the right-of-use assets and lease liabilities equal the lease assets and liabilities recognised under Ind AS 17). The requirements of Ind AS 116 was applied to these leases from 01st April, 2019.

Leases previously accounted for as operating leases

The Company does not have any assets on operating lease.

The effect of adoption Ind AS 116 as at 01st April, 2019

The Company has adopted Ind AS 116 Leases, using the modified retrospective approach and applied the Standard to its leases on a prospective basis. The adoption of the standard did not have any impact to the financial results.

Summary of new accounting policies

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Unless the Company is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Right-of-use assets are subject to impairment.

Notes forming part of Consolidated Financial Statement

For the year ended 31st March, 2020 (Contd.)

Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating a lease, if the lease term reflects the Company exercising the option to terminate. The variable lease payments that do not depend on an index or a rate are recognised as expense in the period on which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses the incremental borrowing rate at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of property, plant and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered of low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Significant judgement in determining the lease term of contracts with renewal options

The Company determines the lease term as the non-cancellable term of the lease, together with any periods covered by an option to extend the lease if it is reasonably certain to be exercised, or any periods covered by an option to terminate the lease, if it is reasonably certain not to be exercised.

2. 'Ind AS 12 - Income Taxes - Appendix C, Uncertainty over Income Tax Treatments:-

The amendment to Appendix C of Ind AS 12 specifies that the amendment is to be applied to the determination of taxable profit (or loss), tax bases, unused tax losses, unused tax credits and tax rates, when there is uncertainty over income tax treatments under Ind AS 12. According to the appendix, companies need to determine the probability of the relevant tax authority accepting each tax treatment, or group of tax treatments, that the companies have used or plan to use in their income tax filing which has to be considered to compute the most likely amount or the expected value of the tax treatment when determining taxable profit/loss, tax bases, unused tax losses, unused tax credits and tax rates. The standard permits two possible methods of transition - i) Full retrospective approach – Under this approach, Appendix C will be applied retrospectively to each prior reporting period presented in accordance with Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors, without using hindsight and ii) Retrospectively with cumulative effect of initially applying Appendix C recognized by adjusting equity on initial application, without adjusting comparatives. The effective date for adoption of Ind AS 12 Appendix C is annual periods beginning on or after 01st April, 2019. The Company has adopted the standard on 01st April, 2019 and has decided to adjust the cumulative effect in equity on the date of initial application i.e. 01st April, 2019 if any without adjusting comparatives. The effect on adoption of Ind AS 12 Appendix C would be insignificant in the standalone financial statements.

3. Amendment to Ind AS 19 – Employee benefit - plan amendment, curtailment or settlement

The amendments require an entity to use updated assumptions to determine current service cost and net interest for the remainder of the period after a plan amendment, curtailment or settlement; and to recognise in profit or loss as part of past service cost, or a gain or loss on settlement, any reduction in a surplus, even if that surplus was not previously recognised because of the impact of the asset ceiling. The adoption of the standard did not have any material impact to the financial statements.
