

# **Heritage Foods Limited**

#### COMPANY BACKGROUND

- Founded in 1992 with the objective to serve the impoverished farming community in India, Heritage Foods is India's leading Dairy company.
- Over the last 3 decades, Heritage Foods has not only stayed true to its value and mission but also created a diversified product portfolio, which includes milk and many milk based value added products.
- The company has a highly qualified and experienced leadership team with decades of experience spanning across business functions and is guided by a strong, eminent & independent board of directors.

## BUSINESS MIX (AS OF 9M-FY24).....

- Milk: (60%): Fresh milk is the most consumed dairy product in India. It is also the most trusted source for essential nutrients for health. With the increasing population the consumption of milk is also on the rise.
- Value Added Products (29%): Value added products are produced by some modification or enhancement via addition or segregation of liquid wholesome milk. Value-added products include cheese, paneer, ghee, yoghurt and probiotic drinks etc.
- Fat Products (8%): The company provides various fat products such as ghee, butter and fresh cream which are widely used in the preparation of various dishes, desserts and beverages.
- Feed & Others (3%): The Company endeavored to provide cattle feed to milch animals and take care of overall health and immunity to improve livestock milk yields and their reproductive ability and entered into a JV with French Partner, Andros group Novandie Brands to foray into the Yogurt segment. Also the company processes various flavors as well as categories such as cones, bars, kulfis, cups, tubs and family packs.

#### BUSINESS MODEL.....

Heritage's integrated business model enables to provide end-to-end capabilities from procurement till distribution and marketing in a cost-efficient manner.

The key components of the integrated business model are:

- Milk Procurement: Raw milk is procured through the procurement operations spread across the states of Andhra Pradesh, Telangana, Tamil Nadu and Karnataka and Maharashtra and consist of procurement of an average of 1.43 MLPD of raw milk from approximately 3,00,000 farmers.
- Chilling Centers: The raw milk is then transported to the nearest processing plant through tankers for onward processing into retail milk packages or to manufacture dairy based value added products.
- Processing Plant: The processing operations are spread across 18 processing plants located in multiple states in India with an aggregate installed capacity of 2.65 MLPD of raw milk. The company has introduced fully automated processing lines with the processing infrastructure designed to ensure efficient operations and high product quality standards.
- Marketing: The products are then sold to consumers under the "Heritage" brand which is distributed through retail and modern trade channels.

## FUTURE GROWTH STRATEGY.....

- Increase the share of Value Added Products: Based on increasing disposable income, demand for convenient products and growing consumer preference for branded healthier & nutritious alternatives
- Increase Milk Procurement: By investing prudently in village level milk collection infrastructure, bulk coolers, chilling centers and processing capacity.
- Penetrate New Geographies: By leveraging the strong distribution network for entering in new geographies and strengthen the existing ones through brand building initiatives.
- Expand the Product Portfolio: By continuously innovating and expanding the product portfolio and delight customers through agile and flexible supply chain.
- Aspire to be Nationally recognized brand: For healthy & fresh products while focusing on efficient capital management.
- Expand milk processing capabilities: With state-of-the-art machinery while maintaining stringent quality control and product innovation.
- Empowering farmers: Through direct procurement of milk from farmers, assisting and equipping farmers to improve milch animals' yield to increase the income of farmers and enhance the socio-economic lives of farmers.

## GROWTH DRIVERS.....

- Livestock: India's livestock sector is regarded as one of the largest in the world with a bovine population of 299.90 Mn, which comprises of cows and buffaloes. The growth of the Indian dairy and milk processing market is ensured by the steady supply of milk which is the primary raw material for this industry.
- Increasing Demand for Milk and Value-Added Products: With an increase in the spending power of the population, the demand for milk and other value-added dairy products is expected to increase in the coming years. In order to meet the rising demand, there needs to be a marked shift from the unorganized to the organized sector.
- Government Initiatives: Government is progressively taking initiatives to promote the dairy industry in India, in which inclination towards cattle breeding, clean milk production, dairy development and feed fodder management are included. The Department of Animal Husbandry, NDDB, and other government affiliated institutions manage these initiatives in a constructive way. Utilizing the available resources for dairy industry to their full extent is the main objective behind these initiatives.
