As the night grows darker, management hopeful of a dawn

Q4FY25 was the third straight quarter with sequential revenue declines. In our view, this was due to market share losses. Now, management is guiding for billing recovery in Q1FY26 (on the basis of the trends from Apr'25 and early-May'25) and revenue growth resuming from Q2FY26. However, we think rerating is unlikely until some tangible signs of recovery are visible. Competitive intensity remains high in this space. New initiatives are yet to scale up. Therefore, we lower our revenue/EBITDA/PAT estimates by 6.1%/7%/7.3% and 9.8%/10.6%/6.4% for FY26 and FY27, respectively. Thus, we cut our TP to INR 485; however, given inexpensive valuations and hopes of a turnaround, we maintain HOLD.

Q4FY25 performance review

In Q4, Matrimony's revenue was INR 1bn, down 2.8% QoQ/9.2% YoY (4.4% below I-Sec est.). Revenue from matchmaking services (~98.8% of total revenue) was down 2.8% QoQ/9.1% YoY. Marriage services revenue (~1.2% of overall revenue) was down 3% QoQ/14.5% YoY. EBITDA margin was 6.5%, down 577bps QoQ/759bps YoY. PAT in Q4FY25 was INR 82mn. The board has recommended a dividend of INR 5/share for FY25.

Matchmaking services' billings grew 4.8% QoQ/declined 4.8% YoY to INR 1.1bn and marriage services' billings grew 20% QoQ/declined 36.8% YoY to INR 12mn. Ex-marketing expenses, EBITDA margin for matchmaking services was 55%. Paid subscription (250k) grew 4.2% QoQ/declined 7.4% YoY. Average transaction value (ATV) was up 1.7% QoQ/up 4.5% YoY to INR 4,621.

Management commentary

Management highlighted that FY25 was a challenging year for the entire online matchmaking industry, marked by a decline in user profiles and paid subscriptions. This downturn was largely due to post-Covid-19 normalisation, as many customers had fast-tracked their marriage decisions during the pandemic, when uncertainty and lockdowns prevailed. However, growth resumed Mar'25 onwards and continued through April and May; management seems confident that billing will likely pick up in Q1FY26 and revenue growth would follow suit in Q2FY26.

07-02-2025: <u>Q3FY25 results review</u> 08-11-2024: **Q2FY25** results review

In north India, Shaadi.com continues to hold a dominant position while Matrimony.com had a limited presence for nearly three years. To regain market share, the company is now focusing on sustained TV-led brand visibility and adopting a multi-brand strategy that leverages both national and community-focused brands such as Bharat Matrimony, Community Matrimony and Jodii.

Advertising spend remains a steep ~40% of revenue – driven by intense competition in north India; but management does not plan to increase this further. Instead, they have reallocated marketing budgets from digital channels to television to maintain consistent brand visibility across key markets.

Regarding new initiatives, the company paused its Wedding Loans service due to poor conversion rates, while the ManyJobs platform has completed its investment phase and is preparing to monetise soon. The MakeMyWedding platform has launched a commission-based model targeting over 100 bookings, and the rebranded AstroFreeChat app is gaining traction with ~1,000 organic downloads daily.

Strategically, the company remains open to acquisitions in adjacent sectors but has no near-term plans for mergers and acquisitions within matchmaking. The focus remains on organic growth, with strategic M&A as a potential option.

Additionally, the company restructured its billing model to avoid falling under Google's mandatory billing system, but continues to invest heavily in Google Ads for customer acquisition.

Valuation

We maintain **HOLD** with a revised target price of INR 485 (INR 560 earlier), based on \sim 18x one-year forward P/E multiple (FY27E). We have cut our EPS estimates 7.3%/6.4% for FY26/FY27.

Upside risks: 1) Stronger-than-expected market share gain in India's northern region, driving recovery in matchmaking; and 2) new initiatives gaining traction faster than anticipated.

Downside risks: 1) Weaker-than-expected conversion of active profiles into paid subscriptions; and 2) slower-than-expected scale up in marriage services.
